

2016 INTERNATIONAL UNDERGRADUATE PROSPECTUS

BEPPU, JAPAN

SHAPE YOUR WORLD

**FREEDOM, PEACE AND HUMANITY.
INTERNATIONAL MUTUAL UNDERSTANDING.
THE FUTURE SHAPE OF THE ASIA PACIFIC REGION.**

Ritsumeikan Asia Pacific University (APU) first opened its doors in 2000 with these ideals as its foundation. What emerged was an entirely new multicultural learning environment with the aim of creating global leaders across all fields and industries. In these past fifteen years, this goal has not only been reached but exceeded as thousands of students from over one hundred thirty countries have come together to learn intercultural coexistence, responsible business leadership and sustainable development. With this well-rounded base of global knowledge, APU students and graduates are actively finding solutions to the issues our world is facing.

Your path to shape your own world and the world around you starts at APU.

advisory committee

EDUCATION THAT INSPIRES YOU

We know our students are capable of contributing positive change to the world and we want them to start even before they graduate. Our students are passionate about being involved. They are passionate about understanding new cultures, global business, languages and solving problems of communities across the world. We invite you to utilize this completely unique environment that provides you with the tools and experiences to succeed on a global level.

CUSTOMIZE YOUR STUDIES

While Japan sets the stage for life at APU, the education offered here is internationally focused. Most of our academic courses are available in both English and Japanese. You will choose between two undergraduate majors – Asia Pacific Studies (APS) and International Management (APM) – and study in the language of your choice. Customize your studies by taking classes from either major, creating a study pathway relevant to your future.

STUDY IN ENGLISH, LEARN JAPANESE

Knowing more than one language is not a goal for our students—it’s a requirement. Studying your degree in English means you will also be required to learn Japanese and vice-versa. Want to add another language to your repertoire? APU makes it possible.

ENGAGE WITH WORLD-CLASS FACULTY

Highly qualified faculty from twenty four countries, many of whom have real-world experience, bring a new dimension of practical learning to the classroom. Learn about issues affecting your world from esteemed practitioners who have honed their skills at the cutting edge of innovation over decades.

KEEP THE FOCUS ON YOU

APU’s interactive style of education creates daily opportunities for lively discussions and group work with students of different cultural and socioeconomic backgrounds in a variety of classroom settings. You will become an independent and proactive learner able to think critically about the issues facing the world.

GO BEYOND THE CLASSROOM

Learning at APU is not simply a matter of reading books and attending lectures. We want you to take your knowledge, turn it into action and make an impact out in the world that exists beyond the classroom. From field studies, exchange programs, community outreach, conferences, internships to academic competitions, get involved in the vast range of opportunities that await you at APU.

COLLEGE	AREAS OF STUDY
College of International Management (APM) <i>Bachelor of Business Administration (BBA)</i>	<ul style="list-style-type: none">• Innovation and Economics• Marketing• Strategic Management and Organization• Accounting and Finance
College of Asia Pacific Studies (APS) <i>Bachelor of Social Science (BSocSc)</i>	<ul style="list-style-type: none">• Environment and Development• Hospitality and Tourism• International Relations and Peace Studies• Culture, Society and Media

You need 124 academic credits in order to graduate. Average time until completion is four years. There are also options to graduate in three or three and a half years.

COLLEGE of INTERNATIONAL MANAGEMENT [APM]

BACHELOR OF BUSINESS ADMINISTRATION (BBA)

Cultivate your own global perspectives, business ethics and problem-solving skills in APM in order to join the next generation of international business leaders. Lectures are designed to give you fundamental and advanced knowledge of the skills pertaining to business administration as well as an understanding of the diverse political systems and economies of the Asia Pacific. As a student in APM, you will begin your studies tackling core management concepts and then branch out into your specialized field of interest.

AREAS OF STUDY

INNOVATION AND ECONOMICS

Learn about what generates innovation, how production is managed and the underlying economic foundations of these concepts. The lectures are geared towards those wishing to contribute to global development through business or policy-making.

MARKETING

The theories and methods needed to successfully provide goods and services to the global market is the focus of courses in the Marketing area of study. You will learn to identify the most effective method to link production to the final consumer and determine how much to provide at what cost.

STRATEGIC MANAGEMENT AND ORGANIZATION

These classes focus on how to set goals, establish principles and develop methods for an organization so that it meets the challenges of evolving social needs. If you aim to become an entrepreneur or plan to take over your family business, this area of study is ideal for you.

ACCOUNTING AND FINANCE

The health of corporations is evaluated by the ebb and flow of money, which is known as accounting, while finance is the field concerned with raising and managing the funds necessary for corporate activities. Classes in this area of study enable you to gain a solid foundation in these demanding fields and exercise your knowledge in an international context.

COURSE CLOSE-UP: ACCOUNTING I • II

Accounting is one of the few truly international systems that transcends governments, economic systems and culture. For this reason, it doesn't matter whether you work in a multinational corporation or an NGO—to be successful in any field, you need training in accounting and budgets.

Accounting requires curiosity, logic and thoroughness as it is your job to piece together details in order to understand a bigger picture. To help students learn how to do this, I keep my teaching objectives clear, keep class fun and keep learning consistent through regular homework and quizzes. An example of an assignment is the 10K report whereby students examine the financial statements of companies and do a simple analysis in their first quarter and build on this during the second quarter by creating a more in-depth report. Through this progression, it becomes apparent to my students why accounting is important and how the principles of accounting are applied to companies in reality.

“Do not go where the path may lead, go instead where there is no path and leave a trail.” I believe that keeping these words from Ralph Waldo Emerson in mind is essential in life. At APU, you will start your own global journey by becoming adept at working with people, making discoveries through trial and error and naturally experiencing the juxtaposition of different cultures.

Professor Phillip Dean Pardo (Canada)

Degree: Master of Business Administration (Finance),
American University

APM was a natural choice for me, having studied business in my high school in Uzbekistan. After arriving at APU, I found the courses to be quite different from what I had studied previously. The practicality of the classes here was new and refreshing to me.

I am currently the teaching assistant (TA) for Prof. Pardo's Accounting I class. Being a TA has been personally beneficial because I am able to brush up on the fundamentals of accounting while assisting the professor and helping students. I am also taking a seminar class in which I am doing research on the impact of brand equity on the financial performance of luxury brands. In fact, I presented my findings from this research at the APU Graduate School of Management Conference held in the Philippines in February 2015. While I have not yet decided where I will work after graduation, I am keeping my options open globally for a managerial accounting position.

Sultonbek Gulomov (Uzbekistan)

APM, 3rd Year Student

COLLEGE OF ASIA PACIFIC STUDIES [APS]

BACHELOR OF SOCIAL SCIENCE (BSocSc)

In APS, we challenge you to tackle a vast array of global issues and develop new ways of thinking to face these obstacles head on. You will combine knowledge from different areas of study to gain a broad understanding of the political systems, economies, societies and cultures of the Asia Pacific while gathering relevant skills in language, information technology and research. APS prepares you for a wide variety of careers in government, international organizations, media, the travel industry and multinational corporations.

AREAS OF STUDY

ENVIRONMENT AND DEVELOPMENT

Profit-driven development has brought with it a raft of environmental and other issues, and sustainable development is an urgent issue for our times. Lectures in this area of study tackle this question of sustainable development in relation to efforts to balance environmental conservation and economic development. You will also examine sustainable development policies in light of the systems and laws in each country and region.

HOSPITALITY AND TOURISM

As cultural exchange and promotion of regional industries through tourism are vital to the development of the Asia Pacific region, this area of study explores multiple facets of tourism through the lenses of culture, society and community. You will focus on the theory and practice of hospitality management as it relates to the tourism, health, service and welfare industries.

INTERNATIONAL RELATIONS AND PEACE STUDIES

This area of study allows you to delve into the intricacies of conflict resolution and peace-building as well as to cultivate the ability to deal with increasingly complex global issues in order to become a future expert. Your studies will draw from the three disciplines of international law, political science and economics and help you gain the necessary critical thinking skills and a policy-oriented approach to succeed in the fields of international relations, dispute resolution and peace-building.

CULTURE, SOCIETY AND MEDIA

This area of study enables you to analyze the societies, cultures and values of the Asia Pacific to deepen your understanding of the issues this region faces. Your coursework will include study on information technology, culture and new media studies. Through this, you will gain a global perspective, fundamental media skills and the ability to view the region from several angles.

COURSE CLOSE-UP: 3RD - 4TH YEAR RESEARCH SEMINAR

Within the APS major, the Environment and Development area of study offers a wide range of educational skills. In this field, you will acquire knowledge, advice and practical experiences related to sustainable human-environment interactions from academic professionals through lectures, seminars and domestic and international field trips. Additionally, it is essential for our students to constantly update themselves on the knowledge of environmental systems, environmental issues, possible causes of these issues and seek the best practices for a sustainable solution.

Students are also encouraged to do volunteer activities and internships to determine their interest in a particular career. Some projects my students have been involved with include doing research with local organic farms and participating in environment clean-up activities. Based on their interests, students may find jobs as environment and development consultants in companies or government or can apply to graduate school at APU or another domestic or international institution.

Teaching is an arrow which flies in both directions transferring knowledge, which is why I emphasize learning through challenging one another while having fun over discussions, talks and case studies. My favorite quote is by Kofi Annan, "Knowledge is power. Information is liberating. Education is the premise of progress, in every society, in every family." I am very thankful to my students who continue to teach me, update me and educate me.

Associate Professor Faezeh Mahichi (Iran)

Degree: Ph.D. (Life Science), Tokyo Institute of Technology

I am taking Prof. Mahichi's 3rd - 4th Year Seminar class in which students do individual research and present their findings. The class atmosphere is friendly as it is a small group and very interactive. My topic focuses on using seaweed as a natural fertilizer. This topic came about thanks to my experience volunteering at a local yuzu fruit farm and I have now been working with this farm regularly for over a year.

For my career, I hope to use media to educate society about environmental issues and plan to work abroad at some point. Specifically, raising awareness about the environmental and health benefits of organic food is my main interest. I think it is important to study what you are passionate about and if your aim is to communicate with people from across the globe, APU is the best university to achieve this goal.

Akari Nakatani (Japan/Taiwan)

APS, 3rd Year Student

STARTING OFF ON THE RIGHT FOOT

1ST YEAR STUDENT WORKSHOP I AND II

In the compulsory 1st Year Student Workshop I and II, not only will you acquire essential study skills, including how to think critically, conduct university-level research, analyze and organize data, improve your academic writing, and lead presentations, but you will also learn vital social skills such as interpersonal-intercultural communication, initiative and peer leadership.

ACADEMIC SUPPORT

Several study support options are available on campus to ensure your academic success. One is academic advising, which consists of meetings with faculty and staff to enable a smooth transition into university life, help you make the most out of APU's multicultural learning environment and support you in designing educational goals. APU's Writing Center is also available to you. This center conducts workshops and individualized tutoring with the goal of making you a self-reliant writer able to notice problems and make corrections on your own. For language support, you may visit the Self-Access Learning Center (SALC), which provides a range of English and Japanese learning materials as well as advice and support for your independent language study.

In your first year at APU, there are several courses available in order for you to become accustomed to university life, learn how to work in a multicultural group and become proactive and independent in your studies. For example, in 1st Year Student Workshop II, English-basis students and Japanese-basis students work together in groups on a semester-long project. By overcoming language barriers during this project, students emerge with greatly improved interpersonal skills and confidence. It is also very important for you to become used to setting goals during your first year. These goals, both short and long term, will motivate you in your studies and give you direction in your

course selection. In classes that I teach, rather than strictly lecturing to students, I act as a facilitator so that students are free to think about the issues at hand on a deeper level and express their own ideas. I believe that going beyond your comfort zone is an essential part of learning, whether that is by trying new things or talking with new people. You will be surprised at how many opportunities will come along.

Associate Professor Hirokuni Tateyama (Japan)

Degree: Ph.D. (Anthropology), University of British Columbia

CONNECTED BY LANGUAGE

Communication is the first step to international understanding and language is one of the primary tools that makes it possible. A new language also brings a new mindset that enriches your perspective. Acquire another language through APU's language classes and you will have a significant advantage in your future career whether it is based in your home country, Japan or another location.

MASTER JAPANESE

As a student undertaking your studies in English, you are also required to take Japanese language classes as an essential component of your degree. Regardless of whether you have prior Japanese language training or not, we have all levels of classes, from beginner to advanced, to suit your ability at enrollment. (The reverse applies to students studying their major in Japanese.)

BECOME MULTILINGUAL

If you aim to learn more than one language, APU offers additional language courses in the Asia Pacific languages of Chinese, Korean, Malay/Indonesian, Spanish, Thai and Vietnamese. Raise your proficiency in these languages by participating in one of APU's language immersion programs available in several different countries around the world.

During high school, I did a short exchange program in Japan, but had not done any formal study of Japanese. This meant I started learning from the very basics after coming to APU in the foundation and intermediate classes which were intense, but a great way to start. Currently, I am taking a class that focuses only on *kanji* (Chinese characters) called Japanese Project A. By continuing to take such courses, my Japanese will be strong enough to use as a complementary language for my career. Since moving off campus in my second year, there has been a noticeable improvement in my Japanese not only because I recognize *kanji* wherever I go, but

also because I practice on a daily basis with my roommate. This country has much to offer and to get the most out of your experience, learning Japanese is essential.

Alexandre Hilario Brugues (Spain/Costa Rica)

APM, 2nd Year Student

BROADEN YOUR HORIZONS

THE WORLD AT YOUR FINGERTIPS

Build your international portfolio by joining a study exchange program for a single semester or a year at one of our international or Japanese partner universities. If you are awarded an APU Tuition Reduction Scholarship, it will still remain valid during your time on an exchange program.

TWICE THE CHALLENGE, TWICE THE REWARD

The only thing better than getting a degree from one international university is getting two degrees from two international universities at the same time. This option is available to you by signing up for one of APU's dual degree programs.

A CAMPUS LIKE NO OTHER

The moment you set foot on campus, you will notice something very different—true diversity. Take a student body originating from eighty countries/regions and put them in a space that encourages experimentation and discovery. What results is a completely unique and vibrant student community who not only embrace APU's multicultural atmosphere but thrive in it through a colorful array of activities, events, clubs and societies. No matter what your interests are, APU has a place for you.

MULTICULTURAL WEEKS

Throughout the school year, APU designates several “Multicultural Weeks” where students can showcase the languages and cultures of one country or region. Take the lead as a week organizer or join in these celebrations of world culture as a performer. It is a learning experience of a lifetime.

2014 Academic Year Multicultural Weeks (in alphabetical order)

- African Week
- Bangladesh Week
- Chinese Week
- Indonesian Week
- Korean Week
- Myanmar Week
- Nepal Week

- Okinawa Week
- The Philippines Week
- Sri Lankan Week
- Taiwan Cultural Week
- Thai Week
- Uzbekistan Week
- Vietnamese Week

 APU Soccer Club
 APU Karate Club
 APU Yacht Circle "KrewS"
 Women's and Men's Lacrosse Teams
 Rugby Club

YOUR HOME AWAY FROM HOME

UP IN THE CLOUDS

APU is located on top of a small mountain at an altitude of 330 meters with beautiful natural surroundings overlooking the city of Beppu and its coastline. This amazing view is just the beginning of what you will find here on campus. Modern buildings, quiet study rooms, sports and health related facilities, on-campus housing and a variety of spaces for you to meet and collaborate with your classmates are all available to create the perfect learning environment.

ON-CAMPUS FACILITIES/AMENITIES

- Student union building with cafeteria, café, convenience store, Japanese tea ceremony room, meeting spaces and music/dance studios
- Multipurpose auditorium
- State-of-the-art library and media center
- Gymnasium and workout facilities
- Athletic track
- Multipurpose fields for soccer, rugby, lacrosse, baseball, etc.
- Basketball courts
- Health clinic and counseling room
- Outdoor amphitheater
- Local food trucks
- ATMs
- Postal services

NOT YOUR TYPICAL DORMITORY

With students from diverse cultures living under one roof, the time you will spend in our on-campus dormitory, AP House, is an unforgettable experience. This unique setting enables you to adapt to your new life in Japan and learn about the cultures of the world through interaction with peers while having a private space to concentrate on your studies. To assist you with this transition, each floor has experienced students selected as resident assistants (RAs) who will answer your questions and concerns and hold activities for you to join.

You have the option of living in a single or shared room. Shared rooms allow you to have an even greater intercultural dorm experience as you will be living with a Japanese roommate. These rooms are separated by a lockable sliding door for your privacy. All rooms are fully furnished.

AP HOUSE STATISTICS

100% guaranteed housing for international students in their first year

378 shared rooms

932 single rooms

1,127 residents

62.4% international students

56 countries and regions represented

44 communal kitchens

39,000 JPY monthly rent including utilities

0 JPY to use laundry facilities

0 JPY to use the internet

AP HOUSE FACILITIES

- Private shower rooms
- Japanese-style public baths
- Computer rooms
- Study rooms
- Small convenience store
- 24 hour security
- Indoor recreation facilities like billiards
- Outdoor basketball courts
- Air conditioning unit in each dorm room

SETTLING IN

EXPERIENCE JAPAN

Japan is not only the world's third largest economic center but one of the most popular travel destinations thanks to its rich traditional and modern culture combined with beautiful landscapes. The country also prides itself in cutting-edge technology and maintaining one of the highest safety records found anywhere in the world. For the ideal location to earn your university degree, look no further.

LOCATION IS KEY

APU's campus is located on the southernmost major island of Kyushu in the bayside city of Beppu. Enclosed by beautiful mountains and the sparkling Beppu Bay, the city's historic backstreets and abundance of hot spring baths make it one of Japan's most visited cities by Japanese and international tourists alike. Beppu is a very safe city with a low cost of living compared to other popular study destinations in Japan and abroad. Dive into the local culture by participating in festivals, sporting events and other activities alongside the welcoming community.

DOWNTOWN LIVING

From your second year, you will move off campus into downtown Beppu and choose between living in an independent student dormitory, private apartment or shared student housing. APU provides support to help you make the transition from on-campus to off-campus accommodation. Here, you will find many entertainment options such as a shopping mall, cafes, karaoke, bowling and restaurants with international food.

ALL IN A DAY'S WORK

Part-time jobs are another option for you to gain real world experience. You are allowed to work on or off campus for up to 28 hours a week during the semester and 40 hours a week during vacations. APU offers to help you obtain the correct work permit before you start to work. Please note that availability of part-time work may vary. Additionally, while on-campus jobs may not require Japanese language ability, off-campus jobs often require at least a conversational level of Japanese.

STAYING HEALTHY

With an abundance of clean drinking water, fresh air, beautiful parks, riverside recreation spaces, seaside walking paths, sports facilities as well as medical centers, Beppu supports your healthy lifestyle. Another advantage is that, as an APU student, you will be covered by Japan's National Health Insurance.

BEPPU AT A GLANCE

121,100 total residents

4,038 international residents

2,217 hot springs

NO1 in Japan **NO2** in the world
for amount of hot spring water

1,374 Tsurumidake,
METERS Beppu's tallest mountain

AVERAGE TEMPERATURE

JANUARY 5 °C / 41 °F	APRIL 14 °C / 57 °F
JULY 28 °C / 82 °F	OCTOBER 20 °C / 68 °F

POPULAR LOCAL FOOD

- *Toriten* (Beppu-style fried chicken)
- *Jigoku mushi ryori* (hot spring steamed cuisine)
- *Shiitake* mushrooms

CREATING A BRIGHTER TOMORROW

SECURE YOUR FUTURE

With the knowledge, skills, language ability and experience you obtain at APU, there are no limits or boundaries to where your degree will take you. Accordingly, we have an unprecedented job placement rate of 94.4% for our students seeking employment in Japan and beyond. Equip yourself with the skills needed to compete for jobs at the highest level in multinational organizations with APU's Career Office support.

TESTING THE WATERS

Gain insight on the working world by joining APU's internship programs and directly connect your studies to your career goals. There are specific programs for which you can earn academic credits as well.

LEARN FROM THE PROS

From the great names in the business world to societal movers and shakers, you will have the chance to hear informative and inspirational speeches from top ranking representatives of leading international organizations through APU's Top Executive Lecture Series and Social Outreach Seminars.

EXPLORE YOUR OPTIONS

The potential of our students has caught the attention of major corporations and international organizations around the world. In fact, in the past year alone, over 350 companies and organizations visited APU to specifically recruit our students for a variety of employment positions in Japan and overseas, meaning you do not even need to leave campus to get your foot in the door. Many students also pursue higher education after graduation, continuing on at one of APU's graduate schools or another institution. All programs in APU's graduate schools are conducted exclusively in English.

Morse Caoagas Flores
APS, graduated in 2006
Nationality: Filipino
Lives in: Geneva, Switzerland
Technical Secretariat, United Nations
Indigenous Peoples Partnership
(UNIPP), International Labor Office (ILO)

The biggest adventure you can take is to live the life of your dreams. I come from a small community where going to university is more of a luxury than a right. However, thanks to generous scholarships and the goodness of others, I was able to attend APU. I can say with absolute certainty that it was my four years of studies there that best prepared me for my career with the UN, a dream I held since high school. Taking courses on current and emerging global issues taught by reputable professors as well as living with students from all over the world profoundly influenced my career and perspective. I now coordinate the overall implementation and monitoring of UNIPP projects and represent UNIPP in coordination, donor relations and cluster meetings in the UN system. APU is a community that encourages you to dream big and reminds you that it is within your reach.

Nadia Souini
APM, graduated in 2005
Nationality: Moroccan
Lives in: Tokyo, Japan
Financial and Administrative Officer,
the Embassy of the Kingdom of
Bahrain to Japan

I had the privilege of being given an active role in the establishment of the Embassy of the Kingdom of Bahrain to Japan in 2005 and am currently in charge of its financial and administrative section. Much of what I learned at APU has proven to be relevant at my place of work. This includes the principles of finance, a thorough understanding of spoken and written Japanese as well as how to interact with people from diverse cultural backgrounds. When I first arrived in Japan, getting used to being away from home and not being able to speak my mother tongue was a challenge. However, my schoolmates became my new family and APU quickly became my second home. I also currently operate private scholarship programs for students in developing countries. In the future, I plan to start a few businesses to create additional funds for these projects.

Zulfiya Shafiyeva
APS, graduated in 2005
Nationality: Uzbek
Lives in: Tokyo, Japan
Founder, Artysz Inc.

With the vision to create an environment where people can thrive and learn through cultural diversity, I founded Artysz Inc. We offer online solutions to support Japanese clients expanding abroad and overseas companies breaking into the Japanese market. During my time as a student at APU, I had plenty of experiences that helped me to truly understand intercultural communication and the value of tolerance. Being one of the organizers of the APU World Students' Summit in 2002 was one such experience. My task was to lead the Public Relations and Media Team working on coverage of workshops and sharing information at press conferences. The skills I learned then have served me well in my career as well as my personal life. I would encourage anyone enrolling to APU to see the world with your own eyes, never stop being curious and listen and learn from those around you.

Jun Hu (David)
APS, graduated in 2005
Nationality: Chinese
Lives in: Chicago, USA
Assistant Professor, Northwestern
University

After APU, I continued my studies, ultimately completing my Ph.D. in art history from Princeton University. I currently teach and research the history of visual arts in East Asia at Northwestern University and am finalizing a book manuscript on the religious architecture in this region predating the 9th century. I learned Japanese and Korean at APU, which have been a great asset as I often use them when conducting research. However, the ability to delve into and identify with different cultures is the most valuable skill I acquired at APU and has helped me to adapt to many situations. Whenever I think back on those years, I feel gratification and gratitude in equal measure. My encounters and experiences at APU led me to a number of important life decisions. I am thankful that I got to share that path with some of the most inspiring people I have ever met in my life.

PURSuing YOUR PASSION

Over the years, our alumni have put to use the skills they gained at APU and continue to shape the world in a variety of different ways. Here are just a few of their stories. How will yours read?

Mirei Sakamoto
APS, graduated in 2010
Nationality: Japanese
Lives in: Tokyo, Japan
Working in the Overseas Consultant
Department of O.P.C. Corporation

My interest in social development in developing countries started when I was a student at APU. The courses challenged and inspired me to employ critical thinking in solving problems, and I was surrounded by highly motivated individuals. Additionally, I took part in volunteer activities in Thailand organized by 'PRENGO', APU's largest student volunteer organization, which applies good practices from Oita Prefecture's development program, 'One Village One Product Movement', among others. Upon graduation, I spent two years in the Leyte province of the Philippines to implement a livelihood improvement project for farmers. Upon my return to Japan, I joined O.P.C. Corporation in order to gain more specialized knowledge in the field. This company provides consulting services for Japanese government institutions in Overseas Development Assistance (ODA) implementation projects. I am currently a Project Adminstrating Coordinator for a technical cooperation project in Nigeria. The job comes with many challenges, but I feel extremely fulfilled when the final results bring about positive changes for others.

Peter Nyitrai
APM, graduated in 2005
Nationality: Hungarian
Lives in: Abu Dhabi, United Arab Emirates
Management Consultant at Abu Dhabi
Motorsports Management (ADMM)

After APU and further studies, I started my career as a management consultant with the Boston Consulting Group, focusing on company turnarounds and private equity support in Europe and the Commonwealth of Independent States. Five years later, I moved on to work for ADMM in Abu Dhabi to restructure the Yas Marina Circuit, a Formula 1 venue. My portfolio also includes projects in Russia, USA and the Middle East. APU had a profound impact on my world view. Very few institutions offer the opportunity to socialize with the world at such a young age. Through these interactions both on and off campus, I learned to appreciate various cultures and forged lifetime friendships in the process. In addition, my seminar professors instilled academic rigor and high standards in me that continue to help me on a daily basis. APU is a unique and rewarding place—take advantage of all it has to offer.

Yankho Joy Fungatira
APM, graduated in 2012
Nationality: Malawian
Lives in: Osaka, Japan
Public Relations Officer, Global
Network Team, Kumon Educational
Japan Co., Ltd.

My job involves organizing English immersion camps and seminars as well as many other projects for our students, instructors and staff with the aim of promoting the company and spreading the Kumon education method. Kumon is now in 48 countries, making it one of the most global companies in Japan. For this reason, the most relevant skill I learned at APU that applies to my current work is what is called "mutual cultural understanding". It means getting to know people from different backgrounds well enough to be able work smoothly together towards achieving one goal in either a business or social setting, which is an integral part of my job. Learning Japanese language and culture at APU has also helped me to thrive in my work environment. APU definitely equips you with the right mindset to challenge the world and helps you to expand your personal network globally.

Kylie Pearce
APS, graduated in 2007
Nationality: Australian
Lives in: Juba, South Sudan
Human Rights Officer, United Nations
Volunteers Program, United Nations
Mission in South Sudan (UNMISS)

APU helped me to understand what it truly means to be a global citizen. Daily interactions with students and instructors from all over the globe made me connect with the issues affecting our world on a personal level. Even after graduation, this network of friends has been a continual and invaluable source of support and encouragement. After APU, I pursued a Master of Law (Juris Doctor) degree at Monash University in Australia and a Master of Law in International Humanitarian Law and International Human Rights Law at the Geneva Academy in Switzerland. I am currently employed under the United Nations Volunteers program as a Human Rights Officer deployed in South Sudan to serve under the United Nations Mission in South Sudan (UNMISS). My role is to monitor, investigate and report on violations of human rights and humanitarian law in the country. My message to you is to engage in your experience at APU with an open heart and an open mind as it can create infinite opportunities for your future.

ADMISSIONS GUIDE

1. HOW TO APPLY

Q1. How do I apply to APU?

A1. Apply online through the Admissions website (<http://admissions.apu.ac.jp>). Alternatively, you may download the application materials from our website and send these in by post. Regardless of application method, you must send all required supporting documents (originals or certified copies) by post.

Q2. I don't speak Japanese. Can I still apply to APU?

A2. While APU is a Japanese university, Japanese language proficiency is not necessary for admission. You can choose to study on an English-basis or Japanese-basis and then take language courses in the alternate language. (For example, English-basis students study their major courses in English but also take Japanese language courses.)

Q3. What are the admission requirements for APU?

A3. The admission requirements for first year students are as follows:
1. Minimum of 12 years or equivalent of standard education
2. Sufficient language ability in either English or Japanese

English-Basis Applicant Minimum Required Test Score

TOEFL® (iBT) : 61
TOEFL® (PBT) : 500
TOEIC®: 700
IELTS: 5.5
EIKEN: Pre-1

Japanese-Basis Applicant Minimum Required Test Score

JLPT N1: 90
JLPT N2: 100
EJU (Japanese): 220(not including the writing section)

Q4. Can I still apply if I have not taken one of the proficiency tests listed in A3?

A4. For international students residing outside Japan, you may request for your language teacher to fill out APU's Language Proficiency Evaluation and include this with your application. **However, because higher emphasis is placed on test score results during application and tuition reduction scholarship screenings, we highly recommend that you submit a language proficiency test score.** For international students residing inside Japan, submission of a language proficiency test score is required. If you are a native speaker of English or Japanese, please see the Admissions website (<http://admissions.apu.ac.jp>) or Admissions Handbook for more information.

Q5. What documents are required to apply to APU?

A5. For details about each document, please visit the Admissions website (<http://admissions.apu.ac.jp>) or refer to the Admissions Handbook.
Required documents for all applicants:
•Undergraduate Application Form
•Application essay
•Certificate of Eligibility / Resident Status Questionnaire
•Proof of application fee payment
•Academic transcripts
•Mandatory or standardized national test results to enter university (only for those who have taken them)
•Language proficiency test score report
•Letter of recommendation
•Passport copy (if available)
•Two identical photographs
•Application Document Checklist
Additional documents for submission (if applicable):
•APU Tuition Reduction Scholarship Application
•Extracurricular Activities Report
•Extracurricular activities certificates
•Certification of scholarships received from organizations other than APU

Q6. How much is the application fee and how do I pay it?

A6. You may pay the application fee by credit card or bank transfer.
5,000 JPY for applicants residing outside Japan
35,000 JPY for applicants residing in Japan
If you are an applicant residing outside Japan and cannot pay by the above methods, you may also pay by bank check for 8,000 JPY.

Q7. What is the application schedule?

A7. APU has two enrollment periods, one in April and the other in September. Please use the application schedule that corresponds to the month you wish to enroll in.
If you reside in China, India, Indonesia, Korea, Thailand, Vietnam or Japan, please see the Admissions Handbook or our website for additional information on application and interview schedules.

Application period for April 2016 enrollment

June 1, 2015 (Mon) - October 23, 2015 (Fri)

Application period for September 2016 enrollment

September 1, 2015 (Tue) - April 1, 2016 (Fri)

Q8. Does the application process require an interview?

A8. Yes, an interview is required to complete APU's application and is an important part of APU's application process. You will have an interview in person, online or by telephone. For those living outside Japan, it will not be necessary for you to travel to Japan for your interview.

Q9. How will I be notified of my screening result?

A9. Your screening result will only be available by post and online after the result notification date. This notification will include both the admission and scholarship screening results. These results will not be available by phone or email.

Q10. I would like to talk with an APU student directly to find out what it is like to study at APU. Is there a way I can do this?

A10. Yes, by signing up for an APU Online Chat, you may talk directly with APU students in English or Japanese during the application process. These are available on the second and fourth Wednesday each month and you may register for one through the APU Online Application System (<http://admissions.apu.ac.jp>).

Q11. I would like more detailed information about APU. Where should I look?

A11. Please visit the Admissions website (<http://admissions.apu.ac.jp>) for detailed information. We also have a Facebook page (<http://www.facebook.com/Ritsumeikan.APU>) and a YouTube page (<http://www.youtube.com/RitsumeikanAPU>) available. For specific questions, email our office directly at welcome@apu.ac.jp.

Q12. How can I stay up to date on my application status?

A12. During the application process, please be sure to check your email regularly. This will be the primary method of contact and we will send you important updates regarding your application.

Q13. I want to apply as a transfer student. What are the application procedures for this?

A13. For information on applying as a transfer student, please visit the Admissions website (<http://admissions.apu.ac.jp>).

2. ONCE ACCEPTED

Q14. I was accepted to APU! How do I start the enrollment process?

A14. There are two steps to the enrollment process: Enrollment Procedure 1 and Enrollment Procedure 2. These enrollment procedures are outlined below and must be completed prior to enrollment by a stipulated deadline. Please refer to the Admissions website (<http://admissions.apu.ac.jp>) or Admissions Handbook for more details.

ENROLLMENT PROCEDURE 1

Payment of the Admission Fee (130,000 JPY)

This fee is required from all students, regardless of scholarship amount, and is non-refundable under any circumstances.

ENROLLMENT PROCEDURE 2

Payment of Partial Tuition for Semester 1

(See the chart below for amount of payment.)

For APU Tuition Reduction Scholarship recipients, this amount will decrease based on the percentage awarded, as shown in the following chart.

APU Tuition Reduction Scholarship Percentage	Partial Tuition Due Before Enrollment
0%	370,000 JPY
30%	259,000 JPY
50%	185,000 JPY
65%	129,500 JPY
80%	74,000 JPY
100%	0 JPY

Payment of Comprehensive Renters' Insurance Fee (15,100 JPY)

This fee is required from all students for protection in case of liability, regardless of scholarship amount. This fee is subject to change.

Payment of AP House Entrance Fee (188,000 JPY for April Enrollment or 168,500 JPY for September Enrollment)

This fee is required from all students, regardless of scholarship amount.

Advance Payment of Fees (if applicable)

Applicable students must pay in advance certain fees such as out-of-pocket tuition expenses for their first year. The total amount will be included in the invoice of the enrollment fees. This system provides assurance to the Japanese Immigration Bureau that the student has sufficient financial resources for their first year of studies.

Submissions of Documents

Several documents must be submitted as part of your enrollment procedures. For details, visit <http://admissions.apu.ac.jp>.

Q15. Do I need a visa to study in Japan? If so, how do I obtain this visa?

A15. Yes, as a general rule, all international students require a student visa to study in Japan. APU will assist you in the visa process once you are accepted by applying for a Certificate of Eligibility (COE) on your behalf for free. Once you receive the COE from APU, you must apply for the student visa at a nearby Japanese embassy/consulate.

3. ATTENDING APU

Q16. What is APU's tuition?

A16. The yearly tuition at APU is as follows:

First Year	1,328,000 JPY
Second, Third and Fourth Year	1,412,000 JPY

Q17. What is the cost of living for APU students?

A17. While the amount varies, we estimate that you will spend around 900,000 JPY per year on living expenses.

Q18. What kind of scholarships are available at APU and how do I apply for one?

A18. APU offers a number of scholarships to outstanding international students which come in the form of a tuition reduction of 30%, 50%, 65%, 80% or 100% lasting for four years of study. The scholarships are based on a number of factors including, but not limited to, past academic performance, language ability, extracurricular activities, personal achievements, economic factors, your application documents and interview. Should you wish to apply for a scholarship, we require that you submit a scholarship essay together with your general application. If successful, you will be notified of your reduction amount when you receive your screening result by post and online. All students are required to have student visa status within Japan at the time of enrollment to be awarded a Tuition Reduction Scholarship.

Q19. Are there any other scholarships available beside the APU Tuition Reduction Scholarship?

A19. Once at APU, there are a number of other scholarship opportunities for tuition and living expenses. Details will be made available to you after enrollment.

Q20. What is the closest major international airport to Beppu?

A20. Fukuoka Airport is the closest major airport with many international destinations. Fukuoka is Japan's sixth largest city and only a two hour train ride away from Beppu.

Q21. Is there any support available to help me travel to APU after I arrive in Japan?

A21. Arrival assistance is organized to help you get from Fukuoka Airport or Oita Airport to APU when you first arrive in Japan. Please note this is available only on certain dates.

Q22. What should I prepare to bring with me to Japan?

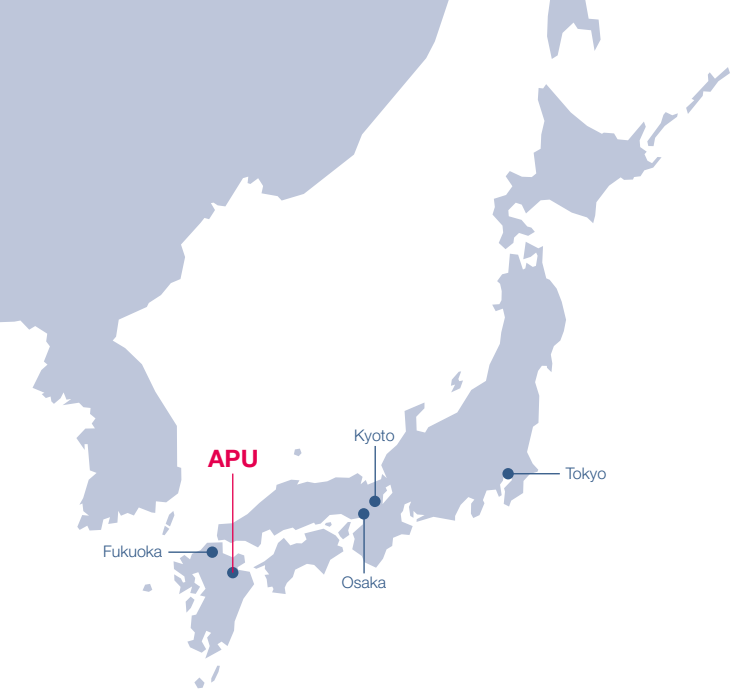

A22. Because House Activity Organizers (HAOs) from AP House hold "shopping tours" after you arrive at APU to help you buy any necessities you may not have, you need only bring minimal luggage with you to Japan and can purchase anything else you need in Beppu.

Q23. My family cannot travel to Japan to attend the entrance ceremony/graduation ceremony. Is there any way for them to watch these events online?

A23. The entrance ceremonies and graduation ceremonies are streamed live online through Ustream so those who are unable to travel to Japan can still watch these events at <http://www.ustream.tv/channel/ritsumeikan-apu>. Your family can keep up with other on campus events as well by regularly checking APU's website (www.apu.ac.jp).

Q24. What options are available to students in regard to specific dietary restrictions, different religions, etc.?

A24. There are several places to buy halal food and vegetarian food both on and off campus. There is also a mosque and churches in Beppu that many APU students choose to attend.

CONTACT US

There are APU offices in the following countries and regions. You are encouraged to make inquiries at your local offices where possible. If you live in a country without an APU office or representative, please contact the APU Admissions Office directly.
