4. Important Considerations for Third Year Transfer Applicants

If you are applying as a third year transfer applicant, before applying, please carefully review the following points and thoroughly consider your study plans and job-hunting plans for after enrollment.

For third year transfer applicants, credits earned before enrolling may be recognized as APU credits. However, depending on the number of credits and courses approved for transfer, it may be difficult to graduate within two years. Therefore, applicants must carefully confirm the graduation requirements and the results of credit transfer in advance. (For details on credit transfer applications, please refer to page 23.)

Job hunting usually begins from the second half of your third year and may continue until you are in your fourth year. If you wish to seek employment in Japan, you will need to devote a certain amount of time to job hunting activities and may therefore be unable to take as many credits as necessary to graduate within two years. Additionally, Japanese language study is highly recommended for those who intend to work in Japan after graduation. Considering the above, we advise those who wish to find employment in Japan to apply as second year students.

Japanese and English courses are not required for third year transfer students. While you may take Japanese or English courses if you wish, it is often very difficult to complete these courses alongside your major courses and graduate within two years. Therefore, this is not recommended.

3. Entering Japan and Other Procedures

3-1. International Applicants Residing Outside Japan

These are the procedures for those who applied as “Applicants Residing Outside Japan”.

A. Certificate of Eligibility (COE)

In order to obtain a student visa, you will need to have a Certificate of Eligibility (COE) issued by the Regional Immigration Services Bureau of Japan.

Step 1

Request APU to apply for your COE

APU will apply for a COE on your behalf as long as you meet all the criteria below.

1. You have applied to APU from outside Japan and require a COE to apply for a student visa.
2. You have paid all the necessary enrollment procedure fees by the designated deadlines.
3. You are able to prove that you possess sufficient financial means for the entire period of study and have submitted all the required documents by the designated deadlines.
4. APU considers it appropriate to apply for a COE on your behalf.

Once APU receives all necessary enrollment fees, we will regard this as your intention to enroll at APU and will proceed to apply for the COE on your behalf.

Step 2

Use your COE to apply for your student visa

The COE will be sent to you by email once it has been issued. **Before coming to Japan**, you must use your COE to apply for a student visa at a Japanese embassy or consulate in your country or region.

! If You Already Hold a Status of Residence in Japan

Visit the Regional Immigration Services Bureau to change or renew your status of residence. For other necessary procedures, such as submitting moving-out/moving-in notifications, consult your local municipal authority (city hall) and complete the procedures on your own.

B. Japan Pre-Entry Tuberculosis Screening (JPETS) *Applicable to Designated Countries Only

Starting in 2025, a pre-entry tuberculosis (TB) screening program has been introduced in phases for individuals entering Japan for mid- to long-term stays. Applicants from designated countries are required to undergo a tuberculosis examination at an authorized medical institution in connection with their application for a Certificate of Eligibility (COE) and visa. **As of April 2026, the designated countries where the program has been implemented are Nepal, the Philippines, and Viet Nam. Nationals of these three countries should confirm the information outlined below.**

1. What is JPETS?

JPETS is a tuberculosis (TB) test required for individuals who intend to enter and stay in Japan as medium to long-term residents. Submitting a TB Clearance Certificate is required when applying for a COE.

- The TB Clearance Certificate must be issued by a designated Panel Clinic and is generally valid for 180 days from the date of the TB medical examination (the date of chest X-ray examination).
- If you are unable to submit a TB Clearance Certificate, you will not be able to receive a COE and therefore will not be able to enroll in APU. Even in such cases, your enrollment to APU cannot be deferred, and the enrollment fee will not be refunded.
- **For more information on this screening, including the designated Panel Clinics in each country, please refer to the special website of the Ministry of Health, Labour and Welfare.**

2. Who is Required to Complete JPETS?

If you are a national of Nepal, the Philippines, Viet Nam, China, Indonesia and Myanmar, you will be required to complete the screening. If documentation issued by your local government confirms that your current place of residence is outside the designated countries or regions, you will be exempt from JPETS.

Ritsumeikan Asia Pacific University Guidelines on Support Services for Students with Disabilities

Ritsumeikan Asia Pacific University (hereinafter referred to as “APU”) will provide support based on the following guidelines to students with physical, developmental, psychological, and other psychosomatic disabilities (hereinafter referred to as “students with disabilities”).

However, these guidelines serve to establish the university’s support service standards and core foundation. Support provisions will be finalized through a thorough discussion between the students with disabilities and the relevant parties after reviewing reasonable accommodation for the individual student in line with the student’s disability.

1. Core Support Principles

All APU faculty and staff will aid in the process of enabling students with disabilities who request support, to have access to the appropriate support needed in order to use their learning experiences at our university to grow and fully connect with society. APU expects that all enrolled students and relevant parties understand these guidelines and will work together to realize our objectives.

2. Basic Policies

- 1) APU faculty and staff will provide support to students with disabilities, in a way that will avoid making distinctions between students with and without disabilities, so that all are able to lead fulfilling student lives with a mutual appreciation and respect for human character and individuality.
- 2) Initiatives implemented as support for students with disabilities will aim to contribute to the overall growth and learning of all students.
- 3) In principle, support provisions for students with disabilities will be implemented based on requests for support by the students with disabilities.
- 4) In the case of difficult decisions concerning support provisions, APU will refer to the principle of reasonable accommodation in the Basic Act for Persons with Disabilities, as well as the standards and treatment set out in MEXT’s Investigative Report on Learning Support for Students with Disabilities (Preliminary and Secondary Summary). Both the disabled student’s own individual situation and the university’s environment will be taken into consideration in these decisions.

3. Support Objectives

The primary objective of APU support for students with disabilities is to ensure that their right to an education and learning is not wrongfully harmed because of their disabilities. At the same time, it is our hope that the provision of appropriate learning support when necessary, in addition to other varieties of support activities, will

result in the cultivation of improved personal relationships and will provide opportunities for support persons to better their understanding of disabilities.

An additional objective of support is to help students with disabilities understand the characteristics of their disability and develop self-advocacy skills to advocate for the types of support and resources they need.

4. Support Framework

Individuals involved in support for students with disabilities will consist of APU faculty and staff in addition to enrolled students. APU will cooperate closely with an external specialist regarding support for persons with disabilities.

A “Consultation Desk for Students with Disabilities” will be set up in the Student Office in order to provide university-wide support to students with disabilities. Support Coordinators for Students with Disabilities will be placed in the Student Office. Information concerning the placement of Student Coordinators will be made public to the student body. Students will not only have the option of the Consultation Desk available to them but will also be able to directly consult with Support Coordinators.

Staff at the Consultation Desk for Students with Disabilities will connect students with disabilities who come in for a consultation with the appropriate Support Coordinator in the above offices according to the nature of the issue. Support Coordinators will be in charge of making the necessary learning support adjustments for students with disabilities, in addition to monitoring collaborative support efforts between support staff and the relevant departments to ensure that efforts are appropriately carried out.

5. Protection of Personal Information and Confidentiality

1) Support persons who possess knowledge of a personal information of students with disabilities (this includes information concerning the disability and consultation records) as a result of their support activities must strictly manage the information in their possession, and obtain consent directly from the student in the case that it is necessary to submit or disclose this information to a third party.

2) Support persons may share personal information concerning the students with disabilities while respecting the boundaries of collective confidentiality in cases where APU determines collaborative support provisions to be necessary.

6. Disclosure of Information

Mediums like APU website will be used to spread information on university support policies for students with disabilities, the support system, consultation process, and support provisions. APU will notify students and prospective applicants via appropriate means as seen fit.

7. The Student Office will be in charge of all administrative matters concerning these guidelines.

8. The President of the university will make the final decision with regards to revision or abolition of these guidelines after deliberation by the Student Affairs Committee and Academic Affairs Committee.

APU aims to create an environment in which people of any sexual orientation and gender identity are able to study and live with the security of knowing that their human rights are fully protected, that they will be treated fairly, and that they need not suffer any discomfort or pain as a consequence of their sexual orientation or gender identity.

Information on Local Medical Services

The following describes medical information in Japan, as well as the availability of medical care in and around our university. By providing this information, we hope to ensure a smooth transition for our students to Japan's and APU's medical system.

A. APU Health Clinic

The Health Clinic on campus is a health room and not a medical institution. While it provides health consultations, emergency response, and first aid treatment, students who need medical examinations, diagnosis of illness, prescription medication, injections, IV drips, or other medical treatments must visit an off-campus medical institution. The Health Clinic can provide consultation regarding referrals to medical institutions and assistance with making appointments.

B. Health Surveys and Measles and Rubella Immunization

In Japan, it is recommended that children be vaccinated against measles and rubella twice during childhood and school age with either a single vaccine or MR vaccine (measles-rubella combined vaccine) for each disease.

If you have been previously vaccinated, you should check any medical record handbook or other periodic vaccination records in advance to determine the dates and types of vaccines you received.

It is strongly recommended that you be vaccinated before coming to Japan if you do not have a vaccination history. Vaccination is also recommended if you do not know your vaccination history, if you have been vaccinated only once, or if you have previously been exposed to measles and rubella.

C. Applicants Currently Receiving Medical Treatment

If you are currently receiving any type of medical treatment, please consult with a physician about whether or not continued treatment will be necessary after enrolling. If you wish to continue treatment at a medical institution in Japan after enrollment, you will need to submit a treatment plan or a patient referral document*¹.

D. Restrictions on Bringing Medication into Japan

There are heavy restrictions on bringing medication into Japan from abroad. Prospective applicants must check with their local Japanese embassy or the Japanese Ministry of Health, Labour, and Welfare regarding whether or not it will be possible to bring their currently prescribed medicine*² into Japan. Before coming to Japan, please make sure to complete the legal procedures to bring medication into Japan.

For further information, please refer to the following page on the Ministry of Health, Labour, and Welfare's website:

Japanese:

E. Psychiatric Disorders/Disabilities (Mental Illnesses, Developmental Disorders, Sleeping Disorders, etc.)

There are no medical institutions in Oita Prefecture that can treat psychiatric disorders or disabilities in languages other than Japanese. As mentioned above, there are many restrictions for bringing medication into Japan. If you are currently receiving psychiatric treatment and will require treatment after coming to Japan, you may confirm further details via the inquiry form URL or 2D code listed on the back cover. Please also consult with your primary care provider about your treatment plan before deciding to enroll.

F. Accessibility

Wheelchair-accessible public transportation within Beppu City is limited. There are currently only a few wheelchair-accessible buses available on the routes used to commute to APU. If you are a wheelchair user, please inquire with APU about accessibility accommodations before applying.

G. Additional Support

You may confirm further details via the inquiry form URL or 2D code listed on the back cover if you will require further assistance in your daily life at APU. This will be confidential and will have no bearing on the evaluation of your application. You may also contact us after being accepted to APU.

Important:

There have been situations in which students were unable to continue receiving prescriptions for the same medicine, or were unable to continue administering self-injections, in Japan. We strongly advise that you make your enrollment decision after consultation with your primary care provider and careful consideration of your medical situation and the circumstances in Japan.

You may contact us via the inquiry form URL or 2D code listed on the back cover if you would like to consult with APU.

*¹ The patient referral document (which must include the name of the condition, symptoms, test results, and course of treatment/treatment plan) must be written in English or Japanese.

*² Injectable medicine that cannot be self-administered must be administered at a medical institution under the supervision of a doctor. However, depending on the facilities of the medical institution, there is a possibility that you will be unable to have the medicine administered. Please also be aware that the APU Health Clinic will be unable to administer injections.
