Core Abilities Assessment (20 minutes)

The Core Abilities Assessment (CORE) consists of verbal, numerical, and abstract reasoning items and measures an individual's capacity to learn concepts and tasks, apply sound reasoning, and draw conclusions from information.

8. Information on Local Medical Services

The following describes medical information in Japan, as well as the availability of medical care in and around our university. By providing this information, we hope to ensure a smooth transition for our students to Japan's and APU's medical system. If you have any questions, please contact the Admissions Office.

APU Health Clinic

The APU Health Clinic is not a full-service medical institution and therefore cannot perform medical procedures such as prescribing medication or giving injections and infusions (IV). Students who will require medical care or treatment will need to use off-campus medical institutions.

Applicants Currently Receiving Medical Treatment

For those currently receiving medical treatment, please consult with a physician about whether or not continued treatment will be necessary after enrolling. If you wish to continue treatment at a medical institution in Japan after enrollment, you will need to submit a treatment plan or a patient referral document*¹.

Restrictions on Bringing Medication into Japan

There are heavy restrictions on bringing medication into Japan from abroad. Prospective applicants must check with their local Japanese embassy or the Japanese Ministry of Health, Labour, and Welfare regarding whether or not it will be possible to bring their currently prescribed medicine*² into Japan. Before coming to Japan, please make sure to complete the legal procedures to bring medication into Japan.

For further information, please refer to the following page on the Ministry of Health, Labour, and Welfare's website:

English: <http://www.mhlw.go.jp/english/policy/health-medical/pharmaceuticals/01.html>

Japanese: <http://www.mhlw.go.jp/topics/0104/tp0401-1.html>

Psychiatric Disorders/Disabilities (Mental illnesses, developmental disorders, sleeping disorders, etc.)

There are no medical institutions near APU that can treat psychiatric disorders or disabilities in languages other than Japanese. As mentioned above, there are many restrictions for bringing medication into Japan. For individuals currently receiving psychiatric treatment and who will require treatment after coming to Japan, please consult with your primary care provider and then with the university before deciding to enroll.

Accessibility

Wheelchair-accessible public transportation within Beppu City is limited. There are currently only a few wheelchair-accessible buses available on the routes used to commute to APU. Accordingly, it is difficult to commute to APU by bus. Students must also contact the bus company in advance to use a wheelchair-accessible bus. It is advisable for wheelchair users considering APU to inquire with the university about accessibility accommodations before applying.

Additional Support

Contact the Admissions Office if you will require further assistance in your daily life at APU. This will be confidential and will have no bearing on your application's evaluation. You may also contact us after being accepted to APU.

Please note:

There have been situations in which students were unable to continue receiving prescriptions for the same medicine, or were unable to continue administering self-injections, in Japan. We strongly advise that you make your enrollment decision after consultation with your primary care provider and careful consideration of your medical situation and the circumstances in Japan.

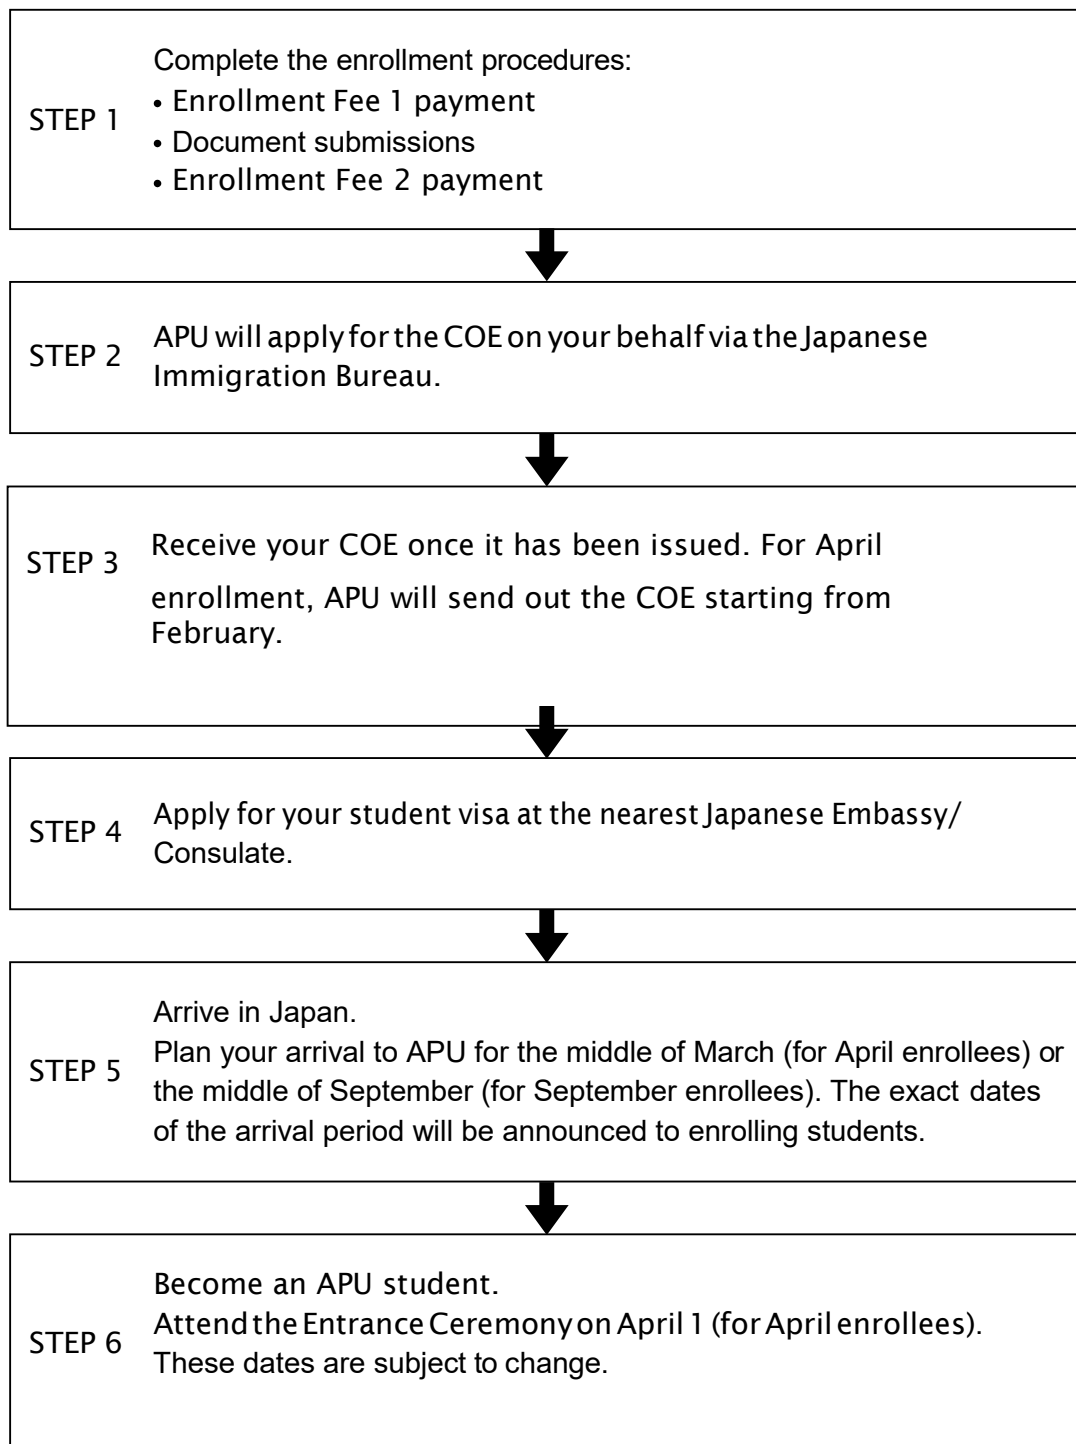

If you have any questions, or if you would like to consult with the university, contact the Admissions Office at +81-977-78-1119 or welcome@apu.ac.jp.

*¹ The patient referral document (which must include the name of the condition, symptoms, test results, and course of treatment/treatment plan) must be written in English or Japanese.

*² Injectable medicine that cannot be self-administered must be administered at a medical institution under the supervision of a doctor. Ritsumeikan Asia Pacific University Guidelines on Support Services for Students with Disabilities

Ritsumeikan Asia Pacific University (hereinafter referred to as “APU”) will provide support based on the following guidelines to students with physical, developmental, psychological, and other psychosomatic disabilities (hereinafter referred to as “students with disabilities”).

However, these guidelines serve to establish the university’s support service standards and core foundation. Support provisions will be finalized through a thorough discussion between the students with disabilities and the relevant parties after reviewing reasonable accommodation for the individual student in line with the student’s disability.

1. Core Support Principles

All APU faculty and staff will aid in the process of enabling students with disabilities who request support, to have access to the appropriate support needed in order to use their learning experiences at our university to grow and fully connect with society. APU expects that all enrolled students and relevant parties understand these guidelines and will work together to realize our objectives.

2. Basic Policies

- 1) APU faculty and staff will provide support to students with disabilities, in a way that will avoid making distinctions between students with and without disabilities, so that all are able to lead fulfilling student lives with a mutual appreciation and respect for human character and individuality.
- 2) Initiatives implemented as support for students with disabilities will aim to contribute to the overall growth and learning of all students.
- 3) In principle, support provisions for students with disabilities will be implemented based on requests for support by the students with disabilities.
- 4) In the case of difficult decisions concerning support provisions, APU will refer to the principle of reasonable accommodation in the Basic Act for Persons with Disabilities, as well as the standards and treatment set out in MEXT’s Investigative Report on Learning Support for Students with Disabilities (Preliminary and Secondary Summary). Both the disabled student’s own individual situation and the university’s environment will be taken into consideration in these decisions.

3. Support Objectives

The primary objective of APU support for students with disabilities is to ensure that their right to an education and learning is not wrongfully harmed because of their disabilities. At the same time, it is our hope that the provision of appropriate learning support when necessary, in addition to other varieties of support activities, will result in the cultivation of improved personal relationships and will provide opportunities for support persons to better their understanding of disabilities.

4. Support Framework

Individuals involved in support for students with disabilities will consist of APU faculty and staff in addition to enrolled students. APU will cooperate closely with an external specialist regarding support for persons with disabilities. A “Consultation Desk for Students with Disabilities” will be set up in the Student Office in order to provide university-wide support to students with disabilities. Support Coordinators for Students with Disabilities will be placed in the Student Office, Academic Office, Admissions Office, and Career Office. Information concerning the placement of Student Coordinators in these offices will be made public to the student body. Students will not only have the option of the Consultation Desk available to them but will also be able to directly consult with Support Coordinators. Staff at the Consultation Desk for Students with Disabilities will connect students with disabilities who come in for a consultation with the appropriate Support Coordinator in the above offices according to the nature of the issue. Support Coordinators will be in charge of making the necessary learning support adjustments for students with disabilities, in addition to monitoring collaborative support efforts between support staff and the relevant departments to ensure that efforts are appropriately carried out.

5. Protection of Personal Information and Confidentiality

- 1) Support persons who possess knowledge of a personal information of students with disabilities (this includes information concerning the disability and consultation records) as a result of their support activities must strictly manage the information in their possession, and obtain consent directly from the student in the case that it is necessary to submit or disclose this information to a third party.
- 2) Support persons may share personal information concerning the students with disabilities while respecting the boundaries of collective confidentiality in cases where APU determines collaborative support provisions to be necessary.

6. Disclosure of Information

Mediums like APU website will be used to spread information on university support policies for students with disabilities, the support system, consultation process, and support provisions. APU will notify students and prospective applicants via appropriate means as seen fit.

7. The Student Office will be in charge of all administrative matters concerning these guidelines.

8. The President of the university will make the final decision with regards to revision or abolition of these guidelines after deliberation by the Student Affairs Committee and Academic Affairs Committee.

Supplementary Provision

These guidelines are in effect as of April 1, 2016.
