SHAPE YOUR WORLD

With over 100 years of tradition and history, the Ritsumeikan Academy opened Ritsumeikan Asia Pacific University (APU) in 2000 as Japan's first genuinely international university. APU's graduate schools, fully accredited by the Japanese Ministry of Education, Culture, Sports, Science and Technology (MEXT), welcome students into an entirely English-based curriculum within a unique multicultural environment. Since the opening of our graduate schools in 2003, efforts have been made to further education and research initiatives as well as expand our contributions to the Asia Pacific region. The graduate schools at APU focus on Asia Pacific studies, with study options geared towards tackling the complex issues facing the societies and environments of the Asia Pacific region, as well as management, with a focus on the Japanese business style and the dynamic world of international business.

Toshitsugu Otake, Ph.D. (Japan)
Professor and Dean of the Graduate School of Management

Degree:
 Ph.D. in Industrial Engineering (Iowa State University, USA)
 M.Sc. in Statistics (Iowa State University, USA)
 M.Sc. in Mathematics (University of Central Missouri, USA)
 M.A. in Economics (University of Central Missouri, USA)
Research Fields:
 Financial Risk Management, Statistical Modeling, Logistics Engineering, FinTech

The mission of APU's Graduate School of Management (GSM) is to cultivate creative, well-rounded professionals and leaders who will play a central role in resolving management issues at globalizing enterprises and other organizations by imparting advanced management skills, innovation, a good understanding of business ethics, and a deep insight into globalization.

The Graduate School of Management has enjoyed an excellent reputation since it was established in 2003. It was given a 3 Palmes of Excellence rating (Excellent Business Schools with reinforcing international influence) in 2009 and was recognized as one of the top 20 business schools in the field of international management in East Asia in 2012-2013 by Eduniversal. APU has also served as a council member representing Japan in the Association of Asia Pacific Business Schools since 2012. As of January 2019, APU Vice President Kenji Yokoyama is serving as President of this association. In addition, APU is continuously recognized in Japan by the Nikkei Shimbun as one of the top three educational institutions for employability of graduates.

The Graduate School of Management prepares you for managerial positions with advanced knowledge in international business and understanding of Japanese management practices. It is the only institution in the world where you can do so in an all-English curriculum within a culturally diverse learning environment.

Let GSM be your first step toward a successful global business career.

MBA PROGRAM OVERVIEW

The MBA program at APU is conducted entirely in English in a culturally diverse learning environment. It offers a strong foundation in established international and Japanese management techniques, interactive classes with faculty, and students from around the world, as well as opportunities for independent research and internships in the university's extensive Japanese business network. Students benefit from an AACSB-accredited, international standard business management curriculum grounded in a Japanese focus on business sustainability, management quality control, and customer service excellence.

PROGRAM STRUCTURE AND CONTENT

The GSM curriculum consists of four components: required subjects (analytical foundations, core business fundamentals, and capstone courses); elective subjects (specialization courses); core-related subjects (courses related to the core business fundamentals and Japanese language courses); and management seminars.

In addition to fulfilling the credit requirements, students conduct a research project and complete an extended piece of writing in the form of a master's thesis, independent final report, or internship-based case study. Students will also have the option to take basic Japanese language courses, credits from which will count towards program completion requirements. Japanese language knowledge has aided many of our GSM graduates in seeking employment at Japanese companies.

MASTER'S PROGRAM OVERVIEW

MASTER OF BUSINESS ADMINISTRATION

Degree:	Master of Business Administration (MBA)
Specializations:	Accounting and Finance (AF) Marketing and Management (MM) Innovation and Operations Management (IOM) Japanese Management (JM)
Enrollment Semesters:	April, September
Program Duration:	2 years*
Yearly Intake:	40 students
Total Tuition:	3,600,000 JPY (Subject to change)

*Accelerated completion in 1.5 years may be possible upon further examination after enrollment. The total tuition for the programs will not change even if you complete your degree before the standard period of completion.

INTERNATIONAL ACCREDITATION

The Associate to Advance Collegiate Schools of Business (AACSB - www.aacsb.edu) is an internationally recognized accreditation organization of business schools. Only the world's leading business schools can receive accreditation, with approximately 790 schools having obtained accreditation so far. Both APU's undergraduate and graduate business schools received this prestigious accreditation in 2016.

Research Fields: Consumer Behavior, Tourism Marketing, Viral Marketing, Co-Creation

“The MBA program at APU prepares you to engage with Japanese corporations around the world. It opens the door to a managerial career in Japanese companies as well as companies that seek to enter or expand in the Japanese market. APU stands for the global integration of Japan, and it is the place you must be to explore your potential and establish your legacy in the international business world.”

SPECIALIZATION OVERVIEW

Supported by its world-class corporations, Japan is the first Asian country to have successfully industrialized. The Japanese Management (JM) specialization focuses on the philosophy and practices that are key to such enterprises. With their emphases on quality, innovation, and customer service and with their unique style of human resource management and stakeholder model of governance, companies in Japan provide an alternative to that of the shareholder model practiced mostly in English-speaking countries—including the USA. This specialization focuses on the successes and failures of Japanese corporations and provides a model of corporate management in the Asia Pacific Region.

The Global Competency Enhancement Program (GCEP) is held at APU to support the globalization of corporate talent. Until now this program has had success with a number of Japanese companies. Pictured above are students dispatched from FamilyMart (left) and NEC Corporation (right) giving presentations on their findings through the program.

SPECIALIZATION SUBJECTS

- Management in Asia and Japan
- Japanese Corporations and Asia Pacific
- Management of Japanese Family Business
- Quality and Operations Management
- Financial Institutions and Markets
- Hospitality Management

“Despite coming from a mechanical engineering background, I have been provided with a pool of opportunities at APU—from exposure to diverse cultures and learning from faculty with world class expertise to gaining an entrepreneurial mindset. Thanks to unique programs here, such as short internships at family-run businesses, and meeting with exchange students like those from Norway who shared their knowledge of fast-paced technological growth in Scandinavia, my time at APU has also enabled me to expand my network within Japan and worldwide. Thanks to these experiences and the inspiring professors supporting us, I now have the practical knowledge to follow my passions and dreams.”

Anty Kannampilly Joseph (India)
Master of Business Administration Student

ACCOUNTING AND FINANCE (AF)

MASTER OF BUSINESS ADMINISTRATION

Phillip Dean Pardo, MBA, Professor (Canada)

Research Fields: Business Analytics, Hospitality Management Accounting, Sentiment Mining, CRM, Valuation, Taxation, Auditing, Virtuous Management, Natural Capital Accounting

“With ninety-eight percent of students originating from outside Japan, our AACSB-accredited MBA program is truly international, with a diverse mixture of languages, cultures, and perspectives. Our business school meets the highest international standards, and our students, faculty, and alumni are all actively engaged and contribute to the global community.”

SPECIALIZATION OVERVIEW

The Accounting and Finance (AF) specialization discusses theories and concepts of corporate finance, financial engineering, financial institutions, financial accounting, and managerial accounting, providing students with the skills to understand and interpret financial and accounting information. The aim of the specialization is to provide students with tools in the areas of accounting and finance to formulate strategies, design control systems, and evaluate the impact of corporate strategies on various stakeholders.

GSM professors and APU students attending a Beta Gamma Sigma Induction Ceremony. Beta Gamma Sigma is an international honor society serving business programs accredited by AACSB worldwide.

SPECIALIZATION SUBJECTS

- Corporate Finance
- Financial Engineering and Risk Management
- Financial Institutions and Markets
- Managerial Accounting
- Financial Accounting

“I traveled halfway across the world to study at APU, and it has turned out to be an amazing journey so far. While studying for my MBA, I have learned about organizational structures, business strategies, ethics, innovation, and operations management, but at the same time I have learned how to interact with people from other cultures. At APU, I have the liberty to focus on subjects I am interested in, such as how companies stay innovative and motivate employees to create through goal setting. I’m sure the knowledge and experience I gain will prepare me for a leadership position in a global, innovative company.”

Marita Myren (Norway)
Master of Business Administration Student

MARKETING AND MANAGEMENT (MM)

MASTER OF BUSINESS ADMINISTRATION

Lailani Alcantara, Ph.D., Professor (The Philippines)

Research Fields: International Expansion, Innovation Diffusion, Macro Organization Behavior

“At APU, we bring the world to our classroom. Our MBA students and faculty come from different parts of the world with diverse professional backgrounds. Being part of our program means that you are not just achieving your potential—you are building a network of professionals who will make a difference in the world.”

SPECIALIZATION OVERVIEW

The Management and Marketing (MM) specialization focuses on understanding and managing the human dimensions of organizations. For business organizations, some of the most important stakeholders are managers, employees, and customers. Their decisions and actions are guided by a whole range of factors, from very objective aspects to subjective perceptions, emotions, and moral values. Thus, market conditions are in a constant flux which necessitates adaptation as well as provides opportunities for creating new market and social values. Consequently, this specialization emphasizes the need of organizations to develop multi-dimensional and differentiated strategies, as well as sustainable competences and capabilities, not only to cope with the changing business environment but also to lead innovatively and responsibly.

Professor Alcantara giving feedback during her Capstone course, where students develop and propose solutions to problems affecting regional industries after consulting with local business leaders.

SPECIALIZATION SUBJECTS

- Human Resource Management
- Management of Japanese Family Business
- Management in Asia and Japan
- Marketing Strategy
- Marketing Research
- Product Development Strategy
- Hospitality Management

“The exceptional academic resources and conducive learning environment at APU helped me to strike a balance between theoretical study and practical application in real-life situations. The managerial prowess, analytical thinking, and research skills I developed fully prepared me for a Doctoral Program in Economics, which I now currently pursue at another outstanding university in Japan.”

Joseph Junior Aduba (Nigeria, Graduated in 2017)
JSPS Fellow and Ph.D. Student, Ritsumeikan University, Japan
African Business Education Initiative for Youth (ABE Initiative) Scholarship Recipient

INNOVATION AND OPERATIONS MANAGEMENT (IOM)

MASTER OF BUSINESS ADMINISTRATION

Rian Beise-Zee, Dr., Professor and Associate Dean of the Graduate School of Management (Germany)

Research Fields: Service Management and Marketing, Innovation Marketing, Business Administration

“Today’s industries and industry leaders are always in need of innovative ideas, products, and business models. Equally important are a sustainable means of facilitating the implementation and organization of these elements through an equally innovative operations strategy. The courses in our Innovations and Operations Management specialization provide students with the intellectual and practical tools to master both of these and to link them to their own future business goals.”

SPECIALIZATION OVERVIEW

The Innovation and Operations Management (IOM) specialization focuses on production planning, flexibility in production management, inventory management, quality management, management of supply chain, and the impact of information technology on the whole process of production. Another focus of this specialization is on the management of product development and the role of entrepreneurship from a technology-based perspective. This specialization also addresses the question as to why some countries are more innovative than others.

Every semester APU holds a welcome party for new graduate students. With the opportunity to meet their professors and other students in a casual setting, they can start building networks at APU right away.

SPECIALIZATION SUBJECTS

- Quality and Operations Management
- Information Technology Management
- Supply Chain Management
- Entrepreneurship and New Business
- Project Management
- National Innovation Systems

“APU’s multicultural environment provides the perfect opportunity to learn about the business standards of other countries, as well as multiple opportunities for collaboration and discussion with classmates through small class sizes. This has given me new insights and knowledge from different cultural perspectives while also allowing me to share my own point of view. At APU, I was constantly being challenged to be a better version of myself all while preparing to become a leader with global values.”

Stephanie Natania Kezia (Indonesia, Graduated in 2018)
Management Consultant, Skylight Consulting Inc., Japan

CURRICULUM

GRADUATE SCHOOL OF MANAGEMENT (GSM)

A minimum of **forty-four credits** is required for program completion. All subjects in the chart below are awarded two credits upon successful completion.

Yan Li, Ph.D. (China)
Professor and Dean of the Graduate School of Asia Pacific Studies

Degree:
Ph.D. in Civil Engineering (Kyoto University, Japan)
M.Sc. in Urban Geography (East China Normal University, China)
B.Sc. in Urban and Regional Planning (Nanjing University, China)
Research Fields:
City Planning, Environmental Policy, Urban Geography

Steven B. Rothman, Ph.D. (USA)
Associate Professor and Associate Dean of the Graduate School of Asia Pacific Studies

Degree:
Ph.D. in Politics (University of Oregon, USA)
M.Sc. in Politics (University of Oregon, USA)
Research Fields:
International Relations Theory, International Policy Making, International Environmental Policy, Pedagogy

Like you, we at APU's Graduate School of Asia Pacific Studies want to shape a better world. Through our interdisciplinary programs, offered entirely in English, we will challenge your critical thinking, creativity, and passion for change and action. Our faculty, coming from over 20 countries, trained in distinguished universities in Japan and overseas, and with outstanding track records in their careers, will engage you in cutting-edge research and interactive graduate classes. Our learning community—vibrant, stimulating, diverse, and multicultural—will strengthen your values in the pursuit of excellence, mutual respect, understanding, and cooperation in the globalizing world. Our alumni, now spread across the globe and well-positioned in their respective communities of practice, will help broaden your support network as you pursue your goals.

“Ritsumeikan” means the “place to establish your destiny.” The Graduate School of Asia Pacific Studies at APU may very well be where you start this journey.

MASTER'S PROGRAMS OVERVIEW

MASTER'S PROGRAM IN ASIA PACIFIC STUDIES

The Master's Program in Asia Pacific Studies aims to educate and transform students into competent leaders ready to handle challenges facing the Asia Pacific region. Individuals embarking on this program should possess a keen interest in research pertaining to one of two specializations: International Relations or Society and Culture. The broad range of issues addressed in these specializations are supported by four pillars: analytical foundation courses, core courses on the Asia Pacific region, division-specific courses, and research-oriented intensive seminar courses. Under the supervision of their chosen faculty advisors, students will formulate and conduct research that systematically reflects knowledge gained through coursework as well as ideally through fieldwork in the Asia Pacific region.

MASTER'S PROGRAM IN INTERNATIONAL COOPERATION POLICY

The Master's Program in International Cooperation Policy aims to cultivate human resources who will contribute to a peaceful and mutually beneficial coexistence in the Asia Pacific region. Individuals entering this program should possess the ability to incorporate diverse perspectives in their research and will frame their studies around one of five specializations: International Public Administration, Public Health Management, Sustainability Science, Tourism and Hospitality, and Development Economics. Students can further build upon their current knowledge and cultivate their research skills through a variety of workshops and seminars offered throughout the year where they can exchange ideas with influencers within their respective fields. In the end they will develop the practical problem-solving skills and creativity required for sustainable development within the Asia Pacific region.

MASTER'S PROGRAMS OVERVIEW

ASIA PACIFIC STUDIES (APS)

Degree: Master of Science in Asia Pacific Studies
Divisions: International Relations (IR)
Society and Culture (SC)
Enrollment Semesters: April, September
Program Duration: 2 years*
Yearly Intake: 15 students

INTERNATIONAL RELATIONS (IR)

M. SC. ASIA PACIFIC STUDIES

Utpal Vyas, Ph.D., Associate Professor and Division Head (United Kingdom)

Degree: Ph.D. in International Relations (University of Sheffield, UK), M.Sc. in Political Economy (University of Sheffield, UK), LL.B. in Law (University of Birmingham, UK)
Research Fields: Political Economy and International Relations of Japan and China, East Asian Regional Politics, European Politics

“The International Relations division at APU provides a range of opportunities for students to deepen their knowledge of current international issues and develop the research skills necessary to have a strong impact on the global stage. Students who take advantage of the opportunities available here will find that careers in international organizations, academia, diplomacy, corporate leadership, government services, media, and many other fields will become open to them.”

DIVISION OVERVIEW

The International Relations (IR) division is aimed at expanding students’ empirical knowledge base and sharpening their analytical and theoretical thinking skills regarding social, political, economic, and security phenomena in the globalizing world. The courses in this division provide a useful knowledge base for both academic-bound students and practitioner-bound students with intended careers in security, diplomacy, and media. While taking subjects such as international security, international law, and conflict resolution, students will also focus on writing a thesis or research report.

DIVISION SUBJECTS

- Regionalism and Globalization
- International Law
- International Political Economy
- Comparative Politics and Government
- Conflict Resolution
- International Security
- Special Studies (International Relations)

FACULTY AND THEIR RESEARCH FIELDS

Yoshinori Kaseda, Ph.D., Professor

International Politics, International Security, Asia and North Korea Relations

Yoichiro Sato, Ph.D., Professor

International Relations and Foreign Policy (Asia-Pacific), Comparative Politics (Southeast Asia), Maritime Security

Hidetaka Yoshimatsu, Ph.D., Professor

International Relations, International Political Economy, Regional Studies (East Asia)

Seunghoon Emilia Heo, Ph.D., Associate Professor

International Relations and Global Studies, Peace and Reconciliation, Diplomatic History, International Organization, Intercultural and Interreligious Dialogue

Steven B. Rothman, Ph.D., Associate Professor and Associate Dean of the Graduate School of Asia Pacific Studies

International Relations Theory, International Policy Making, International Environmental Policy, Pedagogy

“Joining the International Relations division in the Graduate School of Asia Pacific Studies does not only provide me with an environment of academic excellence and intellectually stimulating research, but also the opportunity to work with supportive faculty, be part of a thriving graduate student community, and access an engaging alumni network. My experiences at APU so far have allowed me to thrive in my research activities and obtain critical analytical techniques to focus on the issues of vital importance to the Asia Pacific region.”

Sirojiddinov Shokhrukh (Uzbekistan)
International Relations Division Student

SOCIETY AND CULTURE (SC)

M. SC. ASIA PACIFIC STUDIES

Peter Mantello, Professor and Division Head (Canada)

Degree: M.F.A. Media Arts (Concordia University), B.F.A. Film Production (Concordia University), B.A. Asian Studies (Carleton University)
Research Fields: Surveillance, Predictive Policing, Videogame Theory, Conflict and Media, Politics and the Cyber Realm

“Situated in the Japanese city of Beppu and surrounded by nature, APU’s graduate program is an ideal place for contemplative and reflective graduate study. In the Society and Culture division, students deepen their knowledge of the rapid transformations taking place in the world today through the lens of media, society, and culture. By immersing themselves in the unique and diverse environment at APU, our students become open-minded, multifaceted researchers and scholars.”

DIVISION OVERVIEW

The Asia Pacific is one of the most rapidly developing regions in recent decades. To capture the patterns of social and cultural changes occurring, the Society and Culture (SC) division is devoted to promoting comparative academic research on the region. Students can acquire practical skills in formulating and conducting research using theories and methods developed in sociology, cultural anthropology, media, and communication studies. With knowledge concerning the social and cultural backgrounds of the countries and regions, students will have greater employment opportunities in government, industry, commerce, and academia.

DIVISION SUBJECTS

- Changing Social Landscapes
- Media and Communication
- Migration and Trans-Nationalism
- Social Organizations and Institutions
- Sociology and Everyday Life
- Cultural Change
- Special Studies (Society and Culture)

FACULTY AND THEIR RESEARCH FIELDS

Yufu Iguchi, Ph.D., Professor

Gender Studies, Cultural Studies, Southeast Asian Studies (Malaysian Studies), Intellectual History

Chan Hoe Kim, Ph.D., Professor

Folklore Studies and Japanese Literature

Joseph Progler, Ph.D., Professor

Cinema (Science Fiction, Docudrama, Literary Adaptation), Education (Multiculturalism, Curriculum Studies, Pedagogy), Music (Ethnomusicology, Jazz Studies, Performance Practice), Religion (Local-global Dynamics, Environmental Ethics, Pilgrimage)

Hideo Sasagawa, Ph.D., Professor

Area Studies in Southeast Asia

Kumi Seike, Professor

Sociological Theory, Sociology (Theory of Modern Society and Symbiosis, NPO and Region Creation), Theory of Anthropology and Methodologies, Philosophy

Shunichi Takekawa, Ph.D., Professor

Politics and the Media

Kaori Yoshida, Ph.D., Professor

Media Studies (Representation Politics: Gender, Ethnicity, Nation), Cultural Studies, Popular Culture, Comparative Culture Studies

Shinji Kojima, Ph.D., Associate Professor

Social Inequality and Stratification, Globalization, Sociology of Work, Social Movements

“Due to my desire to pursue a career in academic work related to the field of Japanese popular culture, I was motivated to join the Society and Culture division. The professors in this division specialize in a broad range of topics and encourage their students to analyze their lectures critically. By interacting and discussing directly with these professors and my classmates, I have broadened my perspectives both academically and professionally as a global-minded citizen.”

Alisha Rabuepin (Thailand, Graduated in 2018)
Sales Support Representative, Farm Frites International B.V., Thailand

INTERNATIONAL PUBLIC ADMINISTRATION (IPA)

M. SC. INTERNATIONAL COOPERATION POLICY

Susumu Yamagami, Professor and Division Head (Japan)

Degree: M.A. in Political Science (University of Washington, USA)

Work Experience: Ministry of Justice (Japan), Ministry of Foreign Affairs (Japan), United Nations High Commissioner for Refugees (Geneva)

Research Fields: International Politics, Comparative Studies, Area Studies (East Asia), International Relations (Asia Pacific Region)

"In our contemporary world, cross-border movement of people, goods, money and information is continuously evolving. With this deepening of mutual dependence, various challenges in public policy cannot be coped with by a state's local or national government alone. When formulating and implementing domestic public policy, states often find it necessary to consult various international organizations and peer member states facing similar challenges. The International Public Administration division addresses these topics and explores modalities and alternatives to improve current situations and to cope with future challenges."

DIVISION OVERVIEW

The International Public Administration (IPA) division is aimed at providing knowledge and skills to those who are interested in pursuing an advanced career in national and international governmental organizations. This division enables students to improve professional and practical skills to manage and evaluate administrative operations and policies in national, regional, and global settings. The subjects in this division relate to international organizations, international cooperation policy, and public administration, and form the foundation on which each student can further build a more focused study depending on their intended policy field.

DIVISION SUBJECTS

- Disaster Relief and Rehabilitation
- International Public Administration
- International Organizations
- Project Management
- Planning and Evaluation
- Community Development
- Special Studies (International Public Administration)

FACULTY AND THEIR RESEARCH FIELDS

Rikio Kimura, Ed.D., Professor

Social Welfare Studies (Community Development, NGO, Social Enterprise), Area Studies (Cambodia), Pedagogy (Adult Education)

Yasushi Suzuki, Ph.D., Professor

Theories of Banking, Islamic Finance, Public Finance, Institutional Political Economy

Takuro Kikkawa, Ph.D., Associate Professor

Comparative Politics, Area Studies

Tomonori Sudo, Ph.D., Associate Professor

Environmental and Climate Policy, Resource/Environment/Climate Economics, Development Economics and Finance, Development Policy

"Becoming a graduate student at APU has been one of my best life decisions so far. Supportive faculty and in-depth academics provide me with knowledge and skills necessary for my future career in international public administration. With students from all over the world, the lectures and discussions involve interesting, real-world applications of theoretical knowledge. In addition to studying, APU's international cultural events, field trips, and social events bring me a sense of community and understanding that makes me more confident to pursue my dreams."

Nguyen Quynh Hoa (Viet Nam)

International Public Administration Division Student

Japanese Grant Aid for Human Development Scholarship (JDS) Recipient

PUBLIC HEALTH MANAGEMENT (PHM)

M. SC. INTERNATIONAL COOPERATION POLICY

Nader Ghotbi, M.D. and Ph.D., Professor and Division Head (Iran)

Degree: M.D.; Ph.D. in Health Economics (Kyoto University, Japan), M.D. in Medicine (Tehran University of Medical Sciences, Iran)

Research Fields: Applied Health Sciences, Philosophy/Ethics, Clinical Psychology and Public Hygiene Studies/Health Science

"The principal aim of the Public Health Management division is to develop graduates who can contribute to innovation and development at local, national, and international levels in the field of public health management. The division combines education, research, and practice, and is likely to be of interest to medical professionals, health administrators, and representatives from civil society organizations engaged in public health, and others allied with the medical field."

DIVISION OVERVIEW

The Public Health Management (PHM) division teaches students three fundamental skills: skills in managing the budget, finance, economics, and accounting of healthcare costs; skills in epidemiology, health statistics, and research methodology as well as information management; and skills in public health, mainly preventive medicine and environmental health. This division puts emphasis on economics and finances as well as administrative management of healthcare services at both the public and private sectors, while preserving the standard foundations of conventional public health education. Moreover, it encourages students at an early stage to focus on healthcare case studies that relate to significant issues in the Asia Pacific region. Students start by reviewing current health issues as reflected in papers and by raising research questions with policy implications from the very beginning. This aspect of teaching and research is looked upon as a strategic approach throughout the whole length of the program.

FACULTY AND THEIR RESEARCH FIELDS

Serik Meirmanov, Ph.D., Professor

General Life Science, Social Psychology, Human Genetics, Human Pathology, Public Hygiene Studies/Health Science

John Rose, Ph.D., Professor

DNA Nanotechnology, Nanobioscience, Biomolecular Computing, Soft Computing, Bioinformatics

DIVISION SUBJECTS

- Environmental Health
- Biostatistics
- Healthcare Economics
- Public Health Essentials
- Epidemiology
- Bioinformatics
- Special Studies (Public Health Management)

"Studying PHM in Japan, a forerunner in the Global Health Index, gave me the perfect opportunity to understand how a near faultless healthcare system functions. For a healthcare professional from a developing country like myself, this was a dream come true. The blend of lectures and classroom discussions with the out-of-the-box-thinking faculty members gave me valuable insight into global health and how I could learn from it."

Binay Lamichhane (Nepal, Graduated in 2017)

Manager (Quality Assurance), QbD Pharmaceuticals Pvt. Ltd, Nepal
Asian Development Bank - Japan Scholarship Program Recipient

SUSTAINABILITY SCIENCE (SS)

M. SC. INTERNATIONAL COOPERATION POLICY

Thomas Edward Jones, Ph.D., Associate Professor and Division Head (U.K.)

Degree: Ph.D. in Agriculture, (University of Tokyo, Japan)
Research Fields: Environmental Policy, Nature-Based Tourism, Protected Areas, Regional Development

“Due to climate change and other threats to the planetary boundaries, we must accelerate the transitions to sustainable development, which will bring both challenges and chances to all our environmental, social, and economic systems. Our experienced faculty members in the Sustainability Science division are fully committed to helping students develop outstanding research and problem-solving skills that will contribute to their future careers involving transitions towards sustainability.”

DIVISION OVERVIEW

The Sustainability Science (SS) division focuses on the application of science for achieving the goals of sustainable development. This division analyzes the planning and implementation of policies and actions that deal with the relationship between society and nature with the ultimate goal of creating a sustainable future for all. Study involves the scientific understanding of society-nature interactions; linking research with policy and actions; generating new knowledge, tools and techniques; and enhancing scientific and institutional capability for promoting sustainability and resilience. Students are expected to gain a holistic perspective, integrative skills and interdisciplinary knowledge as they engage in analyzing and managing particular problems and issues of population-resource-technology-institution interactions.

DIVISION SUBJECTS

- Environment and Natural Resources Conservation
- Advanced Environmental Geosciences
- Environmental Policy, Law and Administration
- Environmental Economics
- Urban Sustainability
- Industrial Ecology
- Special Studies (Sustainability Science)

FACULTY AND THEIR RESEARCH FIELDS

Yan Li, Ph.D., Professor and Dean of the Graduate School of Asia Pacific Studies
City Planning, Environmental Policy, Urban Geography

Davar Pishva, Ph.D., Professor
Environmentally Sound Technologies (ESTs), Simulation and Modeling (SaM), Decision Science (DS)

Xuepeng Qian, Ph.D., Associate Professor and IMAT Program Coordinator
Environmental Policy and Management, Regional Development, Sustainable Systems Engineering, Behavioral Science

Hiromi Yamashita, Ph.D., Associate Professor
Environmental Risk Communication, Coastal Wetland Restoration and Decision Making, Education for Sustainable Development

“During the master’s program at APU, I met students from dozens of different countries with different religions, cultures, and perspectives. We all dreamed of fulfilling our personal goals and making a difference in our home countries. My professors helped me to comprehensively understand Japan’s urban management policies, and as a result I am optimistic and firmly believe that I can make a great contribution to the improvement of Shanghai’s environment.”

Limin Qiu (China, Graduated in 2014)
Principal Staff Member, Shanghai Environmental Protection Bureau, China
Japanese Grant Aid for Human Resource Development Scholarship (JDS) Recipient

INTERNATIONAL MATERIAL FLOW MANAGEMENT (IMAT)

DUAL DEGREE WITH TRIER UNIVERSITY OF APPLIED SCIENCES, GERMANY

Xuepeng Qian, Ph.D., Associate Professor and IMAT Program Coordinator (China)

Degree: Ph.D. and Master in Urban and Regional Planning (Ritsumeikan University, Japan), Bachelor in Civil Engineering and International Economics (Shanghai Jiao Tong University, China)
Research Fields: Environmental Policy and Management, Regional Development, Sustainable Systems Engineering, Behavioral Science

Peter Heck, Dr., Professor and IMAT Program Director (Germany)

Degree: Ph.D. in Geography (Saarland University, Germany)
Research Fields: Regional Material Flow Management, Zero Emission and Circular Economy, Green Technology, Green Finance and Regional Added Value, Bio-Economy, Green Growth, Climate Protection and Biodiversity

DIVISION OVERVIEW

IMAT is a dual-degree program managed jointly by APU and the Institute of Applied Material Flow Management (IfaS), an innovative research institute of the Trier University of Applied Sciences (Germany). Students will spend their first year studying at APU and the second year at the Zero-Emission Campus Birkenfeld in Germany.

The program offers integrated knowledge in engineering, economics, and law, as well as in the natural and social sciences. In addition to the learning goals of the Sustainability Science division, IMAT offers multidisciplinary courses to prepare students to become young professionals in zero emission systems design with profound knowledge in renewable energy, integrated water resource management and other sustainable community development areas. Students will also have the opportunity to conduct field work in Japan and participate in an internship in Germany. IMAT students will submit a master’s thesis to IfaS in Germany. A concise summary of this thesis is to be submitted to APU in the form of a research report. Upon completion of the program, students receive two master’s degrees, a Master of Science in International Cooperation Policy (from APU) and a Master of Engineering in International Material Flow Management (from Trier University of Applied Sciences).

DIVISION SUBJECTS

- Greenhouse Gas Abatement Strategies and Carbon Trading
- Principles of Industrial Material Flow Management
- Zero Emission, Circular Economy and Regional Material Flow Management
- Regional Material Flow Management

“Studying in IMAT has allowed me to discover, develop, and enhance my own potential. Due to the variety of lecturers from academic, governmental, and business backgrounds as well as the cross-cultural experiences that APU in Japan and IfaS in Germany offer, I have gained confidence in international cooperation, broadened my horizons, and nurtured my passion in this innovative and emerging field of study.”

Ulrike Kirschnick (Germany, Graduated in 2018)
Project Manager, IfaS (Trier University of Applied Sciences), Germany

TOURISM AND HOSPITALITY (TH)

M. SC. INTERNATIONAL COOPERATION POLICY

M. Kazem Vafadari, Ph.D., Associate Professor and Division Head (Iran)

Degree: Post-Doctoral, Environmental Economics (Kanazawa University), Ph.D. in Asia Pacific Studies (Ritsumeikan Asia Pacific University, Japan), M.A in Theoretical Economics (ISU, Iran)

Research Fields: Cultural Heritage Management, Ecotourism, Agriculture Heritage Tourism, Community Based Tourism and Rural Tourism

“Tourism destinations vary greatly from urban to rural settings and from artificial structures to remote locations in nature. This diversity results in demand for knowledge in various subfields of tourism and related skills. Such subfields include natural environment studies, human resource management, economics, and socio-cultural issues, knowledge of which assists our graduates in contributing to sustainable tourist destinations based on available resources. Today, tourism and hospitality are among the top grossing global industries, and attract individuals from both academia and the business world in order to manage the tourism industry and its socio-cultural, economic, and environmental impacts.”

DIVISION OVERVIEW

Tourism is a fast growing economic sector that transforms societies and communities in the Asia Pacific region. The Tourism and Hospitality (TH) division looks at various aspects of mass and alternative tourism and the economic, social, cultural, and environmental impacts on societies and communities. The division also studies the theory and practice of hospitality management as it relates to the tourism, service, health, and welfare industries. The knowledge and academic/professional skills obtained from our division will be useful for a wide variety of employment opportunities in government service, international organizations, and private corporations, as well as for further study.

DIVISION SUBJECTS

- Tourism Economics
- Cultural and Heritage Tourism
- Environmental Tourism
- Community Based Tourism
- Health and Wellness Tourism
- Tourism Policy and Planning
- Special Studies (Tourism and Hospitality)

FACULTY AND THEIR RESEARCH FIELDS

Hiroshi Todoroki, Ph.D., Professor
Geography, Area Studies, Human Geography

Yukio Yotsumoto, Ph.D., Professor
Sociology, Tourism

Thanh Huong Bui, Ph.D., Associate Professor
Human Geography, Tourism Psychology, Tourism Development and Cultural Heritage Conservation, Tourism Management

“Joining the Tourism and Hospitality division at APU was a significant milestone in my career which created immense opportunities to learn and interact with different cultures and environments, while developing social interaction and international communication skills. The courses, field studies, and internships the program provided have enhanced my knowledge and skills in developing policy, and I now believe I can contribute to developing sustainable tourism in my country.”

Ella Lynthia Simata (Solomon Islands)
Tourism and Hospitality Division Student
Pacific Leaders’ Educational Assistance for Development of State (Pacific LEADS) Scholarship Recipient

DEVELOPMENT ECONOMICS (DE)

M. SC. INTERNATIONAL COOPERATION POLICY

Sangho Kim, Ph.D., Professor and Division Head (South Korea)

Degree: Ph.D. in Economics (Michigan State University, USA), M.A. in Economics (Sogang University, South Korea)

Research Fields: Theoretical Economics, Econometrics, Applied Economics, Economic Policy

“Our faculty members have experience working with various international organizations such as the World Bank, Asian Development Bank, Asia-Pacific Economic Cooperation, and Asian Productivity Organization. Many of our students represent various developing regions and are working on different issues of development economics in their own countries. As a DE student, you will interact with other students who have a range of job experiences in their home countries alongside whom you can prepare yourself for a career in international development on the world stage.”

DIVISION OVERVIEW

The Development Economics (DE) division is aimed at those who are interested in the socio-economic issues of the developing world. Study in this division enables students to improve their critical and analytical skills in many areas of development economics, including industrial development, social development, political development, rural development, and poverty alleviation. Students are also able to enhance their professional and practical skills related to international development. This division also aims to enhance the development of research skills in this field for those wishing to pursue further study. The knowledge and skills obtained will provide a wide variety of employment opportunities in international organizations, national and local governments, international development agencies, NGOs, and development consultancy firms.

FACULTY AND THEIR RESEARCH FIELDS

Kaoru Natsuda, Ph.D., Professor
International Development Studies, International Political Economy, Economic Policy, Industrial Development, Rural and Community Development, Automotive Industry, Apparel Industry

Kozo Otsuka, Ph.D., Associate Professor
Applied Economics, Innovation and Productivity

Tatsufumi Yamagata, Ph.D., Professor
Development Economics, Textile Industry, Bangladeshi Economy, Health and Development, Disability and Development

DIVISION SUBJECTS

- Development Economics
- Macroeconomics
- Development Finance
- Comparative Economic Development
- Microeconomics
- Community Development
- Special Studies (Development Economics)

“At APU I was given the opportunity to experience the intricacies of enriching cultures with unique people from all parts of the world. The knowledge and skills I gained from interacting with many different people allowed me to expand my own range of thought. As a result, I was I able to work more effectively as I organized and implemented social programs, workshops, and awareness campaigns through my local government after graduating.”

Mirna G. De La Portilla F. (Mexico, Graduated in 2013)
Consultant at Servicios, Productos Industriales y Construcción, Mexico

CURRICULUM

GRADUATE SCHOOL OF ASIA PACIFIC STUDIES (GSA)

A minimum of **thirty-two credits** is required for program completion. All subjects in the chart below are awarded two credits upon successful completion. Basic Japanese language subjects are available for those who are interested in studying Japanese but do not fulfill any credit requirements.

PH.D. ASIA PACIFIC STUDIES

DOCTORAL PROGRAM

DOCTORAL PROGRAM OVERVIEW

The developing world is in great need of internationally-minded individuals possessing specialized knowledge and skills. Therefore, it is becoming increasingly common for international aid organizations to enlist the professional guidance of doctoral graduates. The doctoral program aims to produce independent individuals capable of conducting high-level research. This involves gaining expertise in theoretical and empirical approaches for investigation, acquiring in-depth knowledge of the Asia Pacific region, collecting and analyzing data, and drawing practical solutions for complicated issues in a comprehensive and integrative manner. Alumni of this program become distinguished leaders and take on prominent roles in advanced institutions for research and higher education around the world.

ASIA PACIFIC STUDIES

Degree: Doctor of Philosophy in Asia Pacific Studies

Enrollment Semesters: April, September

Program Duration: 3 years*

Yearly Intake: 10 students

Total Tuition: 4,200,000 JPY (Subject to change)

*Accelerated completion in 2 years may be possible upon further examination after enrollment. The total tuition for the program will not change even if you complete your degree before the standard period of completion.

COURSE STRUCTURE AND CONTENT

Completion of the doctoral program requires fulfillment of doctoral coursework in addition to submission and approval of a final dissertation. The dissertation should integrate the results of in-depth investigation into Asia Pacific issues and incorporate individual findings that outline strategic, policy-oriented, and practical solutions to issues arising from current developments in the region. APU provides support for doctoral students conducting field research for their dissertations. Research supervision can be provided in areas such as diversity and integration, environment and development, international political economy, and tourism development.

PH.D. CURRICULUM STRUCTURE

	Lecture Subjects
1st Year	Seminars, Research Paper (arranged by supervisor)
2nd Year	Seminars, Presentations, Tutorials, Research Paper (arranged by supervisor)
3rd Year	Seminars, Tutorials (arranged by supervisor)

“Getting my doctorate at APU allowed me to conduct field work both within Japan and throughout Southeast Asia. This research that culminated in my dissertation also lead to additional peer-reviewed publications and my own book. I was fortunate to also work with my supervisor on JICA international development projects, which gave me practical skills in training, evaluation, and program design needed for my career. This experience helped me learn about emergent leadership and gain the global perspective necessary to start my own evaluation and organization development consultancy and contribute to the global community as the representative to the UN for the International Association for Community Development.”

Dr. Cindy Lyn Banyai (USA, Graduated in 2010)
Founder and Principal of Banyai Evaluation & Consulting, LLC
Adjunct Faculty, Department of Political Science and Public Administration at Florida Gulf Coast University, USA

FACULTY AND THEIR RESEARCH FIELDS

Nader Ghotbi, Ph.D., Professor
Applied Health Sciences, Philosophy/Ethics, Clinical Psychology and Public Hygiene Studies/Health Science

Yan Li, Ph.D., Professor

RESEARCH

APU is involved in a range of research projects in accordance with the needs of international society and the Japanese national research policy.

RITSUMEIKAN CENTER FOR ASIA PACIFIC STUDIES (RCAPS)

RCAPS was established in 1996 with a mission to promote and foster research into the multi-faceted developments and challenges that face the Asia Pacific region in the 21st century. It provides valuable opportunities for research activities by sponsoring annual conferences and coordinating seminars throughout the year.

ASIA PACIFIC CONFERENCE (AP CONFERENCE)

The AP Conference is an international academic conference held once a year at APU. Researchers and students from around the world participate to present their research and academic perspectives. In 2017, approximately 330 presenters and 500 participants from 21 countries gathered on APU's campus for the conference.

ACADEMIC JOURNALS

- The RCAPS Journal is a non-refereed academic journal. The editorial board conducts screening of all submissions. It is open to graduate school students.
- RCAPS Working Paper Series/DOJO is an online series in which students/young researchers can publish their papers with comments by senior researchers for free.

SUPPORT FOR GRADUATE SCHOOL STUDENTS

RCAPS provides financial subsidies for graduate school students to support them in their research endeavors.

Master's Field Research Support Subsidy

Master's students may receive up to 75,000 JPY once in either their second or third semester for travel expenses (transportation and accommodation fees) incurred while undertaking field research or presenting a paper at academic conferences.

Ph.D. Research Support Subsidy

Ph.D. students may receive this subsidy for various research activities such as participating in conference presentations, field research, academic programs or publishing papers in an academic journal. They may receive up to 100,000 JPY a year.

SEMINARS

- There are many seminars to support students and researchers at APU.
- RCAPS Onigiri Seminars invite speakers from outside APU to enhance network building and information sharing in Asia Pacific Studies.
 - Current Research Seminars enable APU faculty members to present their latest research.

For more information, please refer to the website below:
<http://www.apu.ac.jp/rcaps>

Ritsumeikan Center for Asia Pacific Studies

CAREER PATHWAYS

GLOBAL OPPORTUNITIES

Students have access to and support from a worldwide network which consists of international heads of state, ambassadors, and industry leaders (APU Advisory Committee), distinguished researchers from around the world (Academic Advisors), and institutions associated with APU's faculty members. This network also includes APU alumni who are spread across the world working in an array of fields and industries. Utilizing this network is indispensable for our students' careers.

Numerous seminars, workshops, and presentations by professionals working in the field today give students a clear picture of the kind of career options available to them, the current skills being sought for by employers, and the type of work that suits them best. Both our faculty and our students also provide various consultation services to local industries and have the opportunity to interact with executives at the front lines of change in their respective industries.

Proficiency in Japanese language is often a prerequisite for those seeking employment in Japan.

STUDENT LIFE AND FACILITIES

FACILITIES

APU's classrooms are equipped with the latest audiovisual and computer technology, enabling our students to take part in conferences and seminars occurring in other parts of the world in real time. The library, part of the Ritsumeikan Network, allows students to utilize over 2.3 million books and publications. Within the Faculty Office Building, graduate students have their own lounge, lockers, and computer rooms. Furthermore, with access to the Faculty Office Building, students can easily consult with their supervisors during office hours.

STUDENT LIFE

Student life at APU is an international experience like no other. The multicultural diversity of the campus provides a unique environment for students to improve their communication skills and expand their networks. The Student Office at APU provides a range of services for students in terms of club activities, local exchange, homestay programs, accommodations, and visa renewal. A health clinic and counseling rooms are also available should students encounter any problems or need advice. APU caters to the needs of students from all over the world by providing areas such as "The Quiet Space," a room on campus for meditation, contemplation, introspection, prayer, and other forms of calm, quiet reflection, as well as by offering a wide variety of food in the cafeteria.

LIVING COSTS

The average monthly living expenses for students at APU vary depending on lifestyle, but usually range from 70,000 to 100,000 JPY including accommodation. Students can purchase reasonably priced meals at our cafeteria, which offers an array of Japanese and international cuisine.

EVENTS ON CAMPUS

The campus becomes very lively during events such as Multicultural Weeks and the annual cultural festival called Tenkusai. These events are organized to showcase the multitude of languages, cultures, and talents of our student body through food, dance, film, music, and various types of performances.

ACCOMMODATION

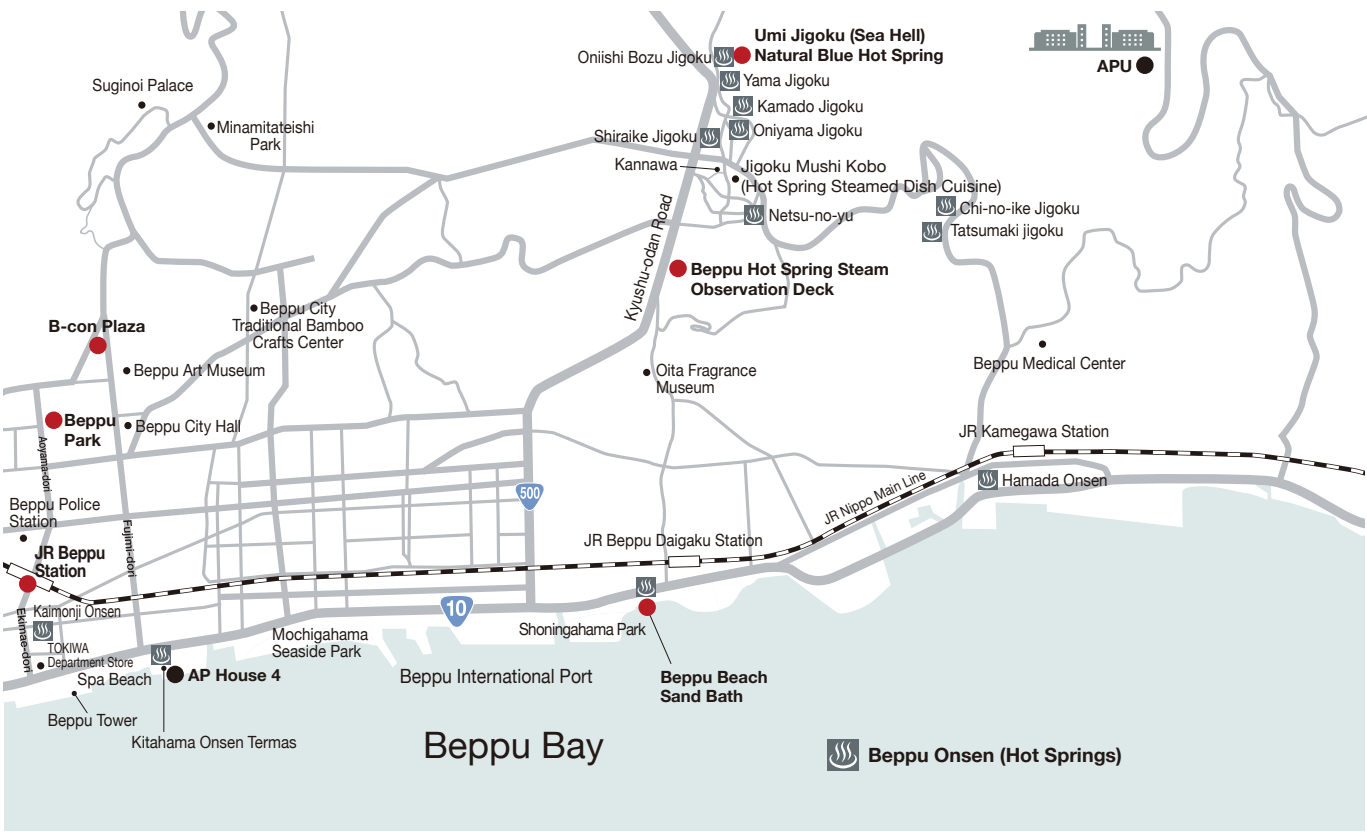

All graduate students are entitled to a room in one of APU's student housing facilities, AP House 4, which will help them adapt to their new life in Japan and to concentrate on their studies. All rooms are equipped with basic facilities, including internet access. AP House 4 is located off campus in downtown Beppu, from which it takes about thirty minutes to reach campus by bus. If students wish to live in different off-campus housing or if they are coming with their family, they can find other affordable options, as Beppu is considerably less expensive than other Japanese cities for private apartments and shared student housing. Students can also get assistance in locating and renting accommodations from Creotech, a university-affiliated company.

BEPPU CITY

APU is located in Beppu, a small city of 120,000 inhabitants located on the coast of Kyushu, the southernmost major island in the Japanese archipelago. The city is famous for its abundance of onsen (hot spring baths), and 140,000 tons of water gush daily from over 2,000 sources, second only to Yellowstone National Park in the United States. Enclosed by beautiful mountains and the sparkling Beppu Bay, the city's historic backstreets and billowing steam clouds give it a peaceful old-town charm, and it remains a popular tourist destination for Japanese and international tourists alike. Beppu is also a mere ten minute train ride from Oita City, a vibrant city of 480,000, which hosted for four matches of the 2002 FIFA® World Cup Korea/Japan™ and is the venue for the Rugby World Cup Japan 2019™.

PLACES OF INTEREST

APPLY TO APU

Students may enroll at APU in either April or September. Multiple application periods are available for enrollment each semester depending on the program you are applying to, scholarship opportunities, and where you live at the time of application. Not all programs begin from each semester, so please be sure to confirm the enrollment periods before applying. Applications can be made by submitting the online APU Graduate School Application and sending hard copies of required documents to APU via post. Please refer to our website for more details: <http://r.apu.jp/applygrad>

ADMISSIONS REQUIREMENTS

1. A bachelor's degree or equivalent
2. An English proficiency test score for non-native English speakers
3. (MBA applicants only) At least three years of full time work experience or GMAT/GRE scores

Minimum English Proficiency Requirement

TOEFL iBT® Test	IELTS	TOEIC® L&R Test*	PTE Academic	Cambridge English Language Assessment
80	6.0	780	50	FCE Grade B

TOEIC®, TOEFL® are registered trademarks of Educational Testing Service (ETS). This publication is not endorsed or approved by ETS.

* L&R is an abbreviation for LISTENING AND READING

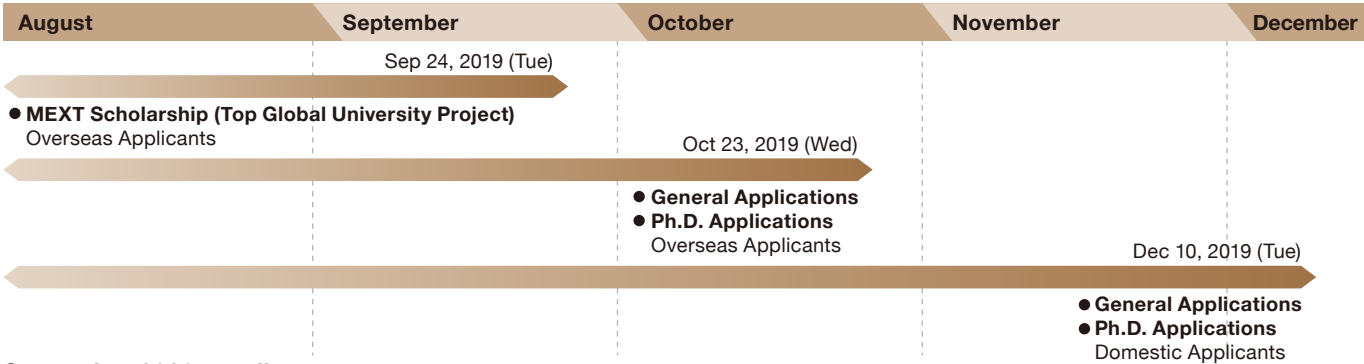

DOCTORAL PROGRAM APPLICATIONS

Applicants for the doctoral program must receive a signed "Supervisor Confirmation Letter" from their prospective APU faculty advisor before submitting their application. Please visit our website to confirm the procedures for applying to the doctoral program: <https://r.apu.jp/grad>

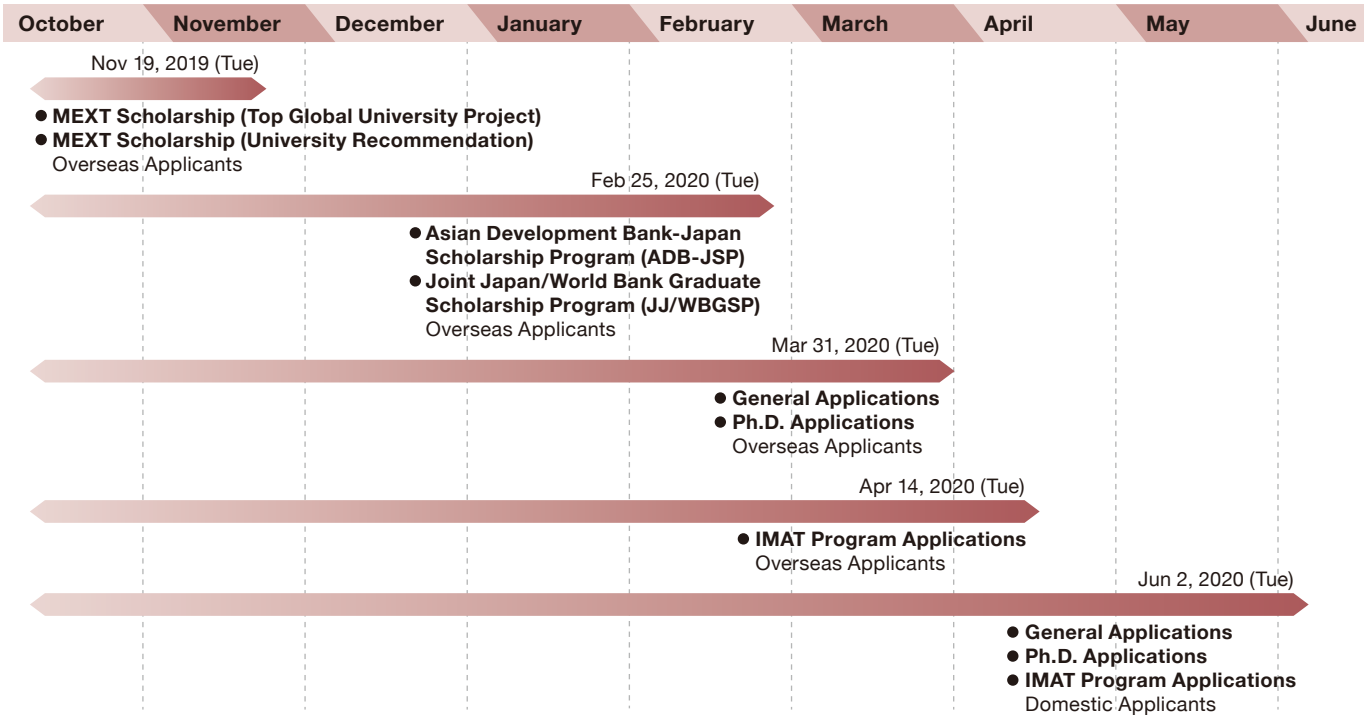

APPLICATION DEADLINES

All application periods open from August 1, 2019 (Thu).

April 2020 Enrollment

September 2020 Enrollment
