Students awarded with this scholarship are expected to maintain a good academic record, complete the tasks assigned to them, and serve as role models for their country or region.</p> <p>Application and Selection Process The scholarship will be decided based on an overall evaluation of the documents submitted for application. Major areas of the application to be evaluated when awarding scholarships are English language proficiency, previous academic records, research proposal/study plan and professional experience (especially for the MBA program).</p> <p>An overall evaluation of all submitted documents will be conducted along with the application and scholarship screening, and the scholarship results will be notified together with the application results. The awarded scholarship percentage is final and will not be reconsidered under any circumstances.</p> <p>Assessment for Continuation A review of academic performance and other criteria will be conducted each semester to determine whether or not recipients qualify for renewal of the APU Tuition Reduction Scholarship. Overseas applicants are evaluated solely on the information provided in their application documents. In some cases, an interview may be required. 7 Information on Local Medical Services

1. APU Health Clinic

The APU Health Clinic is not a full service medical institution and therefore cannot perform medical procedures such as prescribing medication or administering injections and infusions. Students who will require medical care or treatment will need to use off-campus medical institutions.

2. Applicants Currently Receiving Medical Treatment

For those currently receiving medical treatment*¹, please consult with a physician before applying to APU about whether or not continued treatment will be necessary after enrolling. If continued treatment is necessary, you will be required to submit a **treatment plan** when completing the enrollment procedures. You must also submit a **patient referral document***² once you enter APU.

*¹'Receiving medical treatment' refers to individuals who require such treatment as oral, injectable or topical medication, physical therapy, psychological treatment, etc., as advised by a medical professional.

*²The patient referral document must include the name of the condition, symptoms, test results and a course of treatment/treatment plan. The document must be written in English or Japanese. Please attach an English or Japanese translation if the document is written in a different language.

3. Restrictions on Bringing Medication into Japan

There are strict restrictions on bringing medication into Japan from abroad. It is recommended that prospective applicants check with their local Japanese embassy or Ministry of Health **before applying to APU** regarding whether or not it will be possible to bring the medication* that you are currently using into Japan. If you are accepted and intend to enroll at APU, please make sure to complete the legal procedures to bring medication into Japan. For more information, refer to the Ministry of Health, Labour, and Welfare Homepage (<http://www.mhlw.go.jp/english/policy/health-medical/pharmaceuticals/01.html>).

* Injectable medicine that cannot be self-administered must then be administered at a medical institution under the supervision of a physician. However, depending on the facilities of the medical institution, there is a possibility that you may not be able to have the injection administered. Please also be aware that the APU Health Clinic cannot perform medical procedures such as administering injections.

4. Psychiatric Disorders/Disabilities (mental illnesses, developmental disorders, sleeping disorders, etc.)

There are no medical institutions near APU which can treat psychiatric disorders or disabilities **in languages other than Japanese**. In addition, there are strict restrictions on bringing medication into Japan. For individuals currently receiving treatment for psychiatric disorders or disabilities and who will require treatment after coming to Japan, please **inquire with APU before applying**.

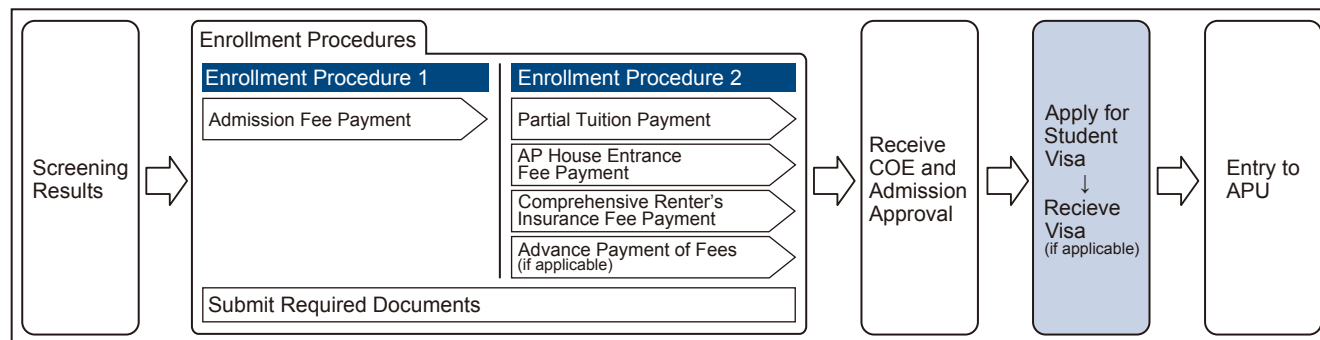

5. Accessibility

Wheelchair-accessible public transportation within Beppu is very limited. There are currently only a few wheelchair-accessible buses available on the routes used to commute to APU. Accordingly, it is difficult to commute to APU by bus. Students must contact the bus company in advance to use a wheelchair-accessible bus. It is advisable for wheelchair users considering APU to inquire to the university about accessibility accommodations before applying.

Ritsumeikan Asia Pacific University Guidelines on Support Services for Students with Disabilities

Ritsumeikan Asia Pacific University (hereinafter referred to as “APU”) will provide support based on the following guidelines to students with physical, developmental, psychological, and other psychosomatic disabilities (hereinafter referred to as “disabled students”).

However, these guidelines serve to establish the university’s support service standards and core foundation. Support provisions will be finalized through thorough discussion between the disabled student and the relevant parties after reviewing reasonable accommodation for the individual student in line with the student’s disability and the university’s support system.

1. Core Support Principles

All APU faculty and staff will support the process of enabling disabled students who request support, to have access to the appropriate support needed in order to use their learning experiences at our university to grow and fully connect with society. APU expects that all enrolled students and relevant parties understand these guidelines and will work together to realize our objectives.

2. Basic Policies

- 1) APU faculty and staff will provide support to disabled students, in a way that will avoid making distinctions between students without disabilities, so that they are able to lead fulfilling student lives with a mutual appreciation and respect for human character and individuality.
- 2) Initiatives implemented as support for disabled students will aim to contribute to the overall growth and learning of all students.
- 3) In principle, support provisions for disabled students will be implemented based on a request for support by the disabled student.
- 4) In the case of difficult decisions concerning support provisions, APU will refer to the principle of reasonable accommodation in the Basic Act for Disabled Persons, as well as the standards and treatment set out in MEXT’s Investigative Report on Learning Support for Students with Disabilities (Preliminary Summary). Both the disabled student’s own individual situation and the university’s environment will be taken into consideration in these decisions.

3. Support Objectives

The primary objective of APU support for disabled students is to ensure that disabled students’ right to an education and learning is not wrongfully harmed because of their disability. At the same time, it is our hope that the provision of appropriate learning support when necessary, in addition to other varieties of support activities, will result in the cultivation of improved personal relationships and will provide opportunities for support persons to better their understanding of disabilities.

4. Support Framework

Individuals involved in support for disabled students will consist of APU faculty and staff in addition to enrolled students. We will cooperate closely with an external specialist on support for disabled persons.

A “Consultation Desk for Students with Disabilities” will be set up in the Student Office in order to provide university-wide support to disabled students. Support Coordinators for Students with Disabilities will be placed in the Student Office, Academic Office, Admissions Office, and Career Office. Information concerning the placement of Student Coordinators in these offices will be made public to the student body. Students will not only have the option of the Consultation Desk available to them, but will also be able to directly consult with Support Coordinators.

Staff at the Consultation Desk for Students with Disabilities will connect disabled students who come in for consultation with the appropriate Support Coordinator in the above offices according to the nature of the issue. Support Coordinators will be in charge of making the necessary learning support adjustments for disabled students, in addition to monitoring collaborative support efforts between support staff and the relevant departments to ensure that they are appropriately carried out.

5. Protection of Personal Information and Confidentiality

- 1) Support persons who possess knowledge of a disabled student’s personal information (this includes information concerning the disability and consultation records) as a result of their support activities must strictly manage the information in their possession, and obtain consent directly from the student in the case that it is necessary to submit or disclose this information to a third party.
- 2) Support persons may share personal information concerning the disabled student while respecting the boundaries of collective confidentiality in cases where APU determines collaborative support provisions to be necessary.

6. Disclosure of Information

Mediums such as APU website, etc., will be used to spread information on university support policies for disabled students, the support system, consultation process, and support provisions. APU will notify students and prospective applicants via appropriate means as seen fit.

7. The Student Office will be in charge of all administrative matters concerning these guidelines.

8. The President of the university will make the final decision with regards to revision or abolition of these guidelines after deliberation by the Student Affairs Committee and Academic Affairs Committee.
