6 Online Assessment

An online assessment will be administered to ensure the fair evaluation of the academic ability, logical reasoning, and cognitive ability of all applicants.

English-basis Applicants

After submitting the online application and paying the application fee, you will see instructions for how to complete the online assessment within the APU Online Application System. The online assessment is composed of three parts: a recorded video interview, the Watson-Glaser Critical Thinking Appraisal III test, and the Core Abilities Assessment test. The entire online assessment will last approximately 60 - 70 minutes.

Video Interview (approximately 15 minutes)

For the video interview, you will not be speaking with a person. Instead, you will see a number of questions on your screen through a video interview platform, and you will record your answers to them. Each question will have a set time limit for responding.

Watson-Glaser III Critical Thinking Appraisal (approximately 30 minutes)

The Watson-Glaser III Critical Thinking Appraisal (WGIII) measures a person's ability to identify and analyze problems, as well as seek and evaluate relevant information to reach an appropriate and logical conclusion. The assessment reports on three aspects of verbal critical reasoning, specifically the ability to 1) recognize assumptions, 2) evaluate arguments, and 3) draw conclusions, as well as providing an overall measure of critical thinking proficiency.

Core Abilities Assessment (approximately 20 minutes)

The Core Abilities Assessment (CORE) consists of verbal, numerical, and abstract reasoning items and measures an individual's capacity to learn concepts and tasks, apply sound reasoning, and draw conclusions from information. (Sample questions: https://downloads.pearsonassessments.com/images/assets/caa/example_questions_coreabilities.pdf)

Japanese-basis Applicants

The online assessment will be conducted in the form of an online interview. APU will contact you by email with more details regarding the interview date and time within one week after the application period deadline.

8 Information on Local Medical Services

The following describes medical information in Japan, as well as the availability of medical care in and around our university. By providing this information, we hope to ensure a smooth transition for our students to Japan's and APU's medical system. If you have any questions, please contact the Admissions Office (International).

1. APU Health Clinic

The APU Health Clinic is not a full-service medical institution and therefore cannot perform medical procedures such as prescribing medication or giving injections and infusions (IV). Students who will require medical care or treatment will need to use off-campus medical institutions.

2. Applicants Currently Receiving Medical Treatment

For those currently receiving medical treatment, please consult with a physician about whether or not continued treatment will be necessary after enrolling. If you wish to continue treatment at a medical institution in Japan after enrollment, please be sure to submit a **treatment plan** or a **patient referral document***¹.

*¹ The patient referral document (which must include the name of the condition, symptoms, test results, and course of treatment/treatment plan) must be written in English or Japanese.

3. Restrictions on Bringing Medication into Japan

There are heavy restrictions on bringing medication into Japan from abroad. Prospective applicants must check with their local Japanese embassy or the Japanese Ministry of Health, Labour, and Welfare regarding whether or not it will be possible to bring the medications*² they are currently using into Japan. Before coming to Japan, please make sure to complete the legal procedures to bring medication into Japan.

For further information, please refer to the following page on the Ministry of Health, Labour, and Welfare's website:

Information for those who are bringing medicines for personal use into Japan

English: <http://www.mhlw.go.jp/english/policy/health-medical/pharmaceuticals/01.html>

Japanese: <http://www.mhlw.go.jp/topics/0104/tp0401-1.html>

*² Injectable medicine that cannot be self-administered must be administered at a medical institution under the supervision of a doctor. However, depending on the facilities of the medical institution, there is a possibility that you may not be able to have the medicine administered. Please also be aware that the APU Health Clinic cannot perform medical procedures such as giving injections.

4. Psychiatric Disorders/Disabilities (Mental illnesses, developmental disorders, sleeping disorders, etc.)

There are no medical institutions near APU which can treat psychiatric disorders or disabilities **in languages other than Japanese**. As mentioned above, there are many restrictions for bringing medication into Japan. For individuals currently receiving psychiatric treatment and who will require treatment after coming to Japan, please consult with your primary care provider and then with the university before deciding to enroll.

5. Accessibility

Wheelchair-accessible public transportation within Beppu City is limited. There are currently only a few wheelchair-accessible buses available on the routes used to commute to APU. Accordingly, it is difficult to commute to APU by bus. Students must also contact the bus company in advance to use a wheelchair-accessible bus. It is advisable for wheelchair users considering APU to inquire with the university about accessibility accommodations before applying.

6. Additional Support

Please contact the Admissions Office (International) if you need assistance or care to make life after enrollment at APU more at ease. It will have no impact on your application screening results. You may also contact us after being accepted to APU.

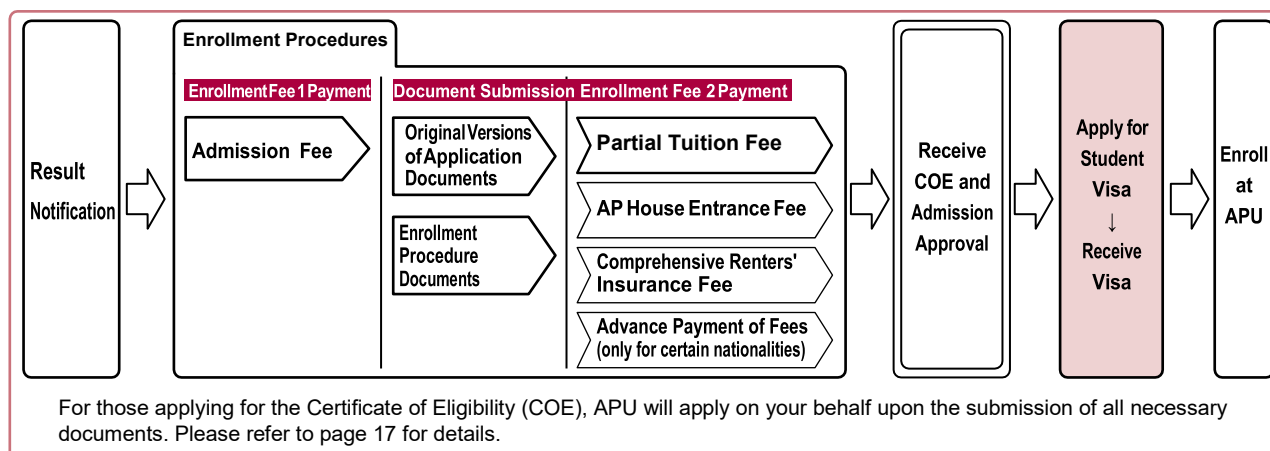

Please note:

There have been situations in the past where, for example, a student taking medicine in their home country could not be prescribed the same medicine in Japan, or where although self-injection was possible in a student's home country, self-injection could not be done in Japan. In order to avoid such situations and to have a fulfilling student life, we kindly ask that you make your enrollment decision after consultation with your primary care provider and careful consideration of your medical situation and the circumstances in Japan.

If you have any questions, or if you would like to consult with the university, please contact the Admissions Office (International) at + 81-977-78-1119 or welcome@apu.ac.jp.

Ritsumeikan Asia Pacific University Guidelines on Support Services for Students With Disabilities

Ritsumeikan Asia Pacific University (hereinafter referred to as “APU”) will provide support based on the following guidelines to students with physical, developmental, psychological, and other psychosomatic disabilities (hereinafter referred to as “students with disabilities”).

However, these guidelines serve to establish the university’s support service standards and core foundation. Support provisions will be finalized through thorough discussion between the students with disabilities and the relevant parties after reviewing reasonable accommodation for the individual student in line with the student’s disability.

1. Core Support Principles

All APU faculty and staff will aid in the process of enabling students with disabilities who request support, to have access to the appropriate support needed in order to use their learning experiences at our university to grow and fully connect with society. APU expects that all enrolled students and relevant parties understand these guidelines and will work together to realize our objectives.

2. Basic Policies

- 1) APU faculty and staff will provide support to students with disabilities, in a way that will avoid making distinctions between students with and without disabilities, so that all are able to lead fulfilling student lives with a mutual appreciation and respect for human character and individuality.
- 2) Initiatives implemented as support for students with disabilities will aim to contribute to the overall growth and learning of all students.
- 3) In principle, support provisions for students with disabilities will be implemented based on requests for support by the students with disabilities.
- 4) In the case of difficult decisions concerning support provisions, APU will refer to the principle of reasonable accommodation in the Basic Act for Persons with Disabilities, as well as the standards and treatment set out in MEXT’s Investigative Report on Learning Support for Students with Disabilities (Preliminary and Secondary Summary). Both the disabled student’s own individual situation and the university’s environment will be taken into consideration in these decisions.

3. Support Objectives

The primary objective of APU support for students with disabilities is to ensure that their right to an education and learning is not wrongfully harmed because of their disabilities. At the same time, it is our hope that the provision of appropriate learning support when necessary, in addition to other varieties of support activities, will result in the cultivation of improved personal relationships and will provide opportunities for support persons to better their understanding of disabilities.

4. Support Framework

Individuals involved in support for students with disabilities will consist of APU faculty and staff in addition to enrolled students. APU will cooperate closely with an external specialist regarding support for persons with disabilities.

A “Consultation Desk for Students with Disabilities” will be set up in the Student Office in order to provide university-wide support to students with disabilities. Support Coordinators for Students with Disabilities will be placed in the Student Office, Academic Office, Admissions Office, and Career Office. Information concerning the placement of Student Coordinators in these offices will be made public to the student body. Students will not only have the option of the Consultation Desk available to them, but will also be able to directly consult with Support Coordinators.

Staff at the Consultation Desk for Students with Disabilities will connect students with disabilities who come in for consultation with the appropriate Support Coordinator in the above offices according to the nature of the issue. Support Coordinators will be in charge of making the necessary learning support adjustments for students with disabilities, in addition to monitoring collaborative support efforts between support staff and the relevant departments to ensure that efforts are appropriately carried out.

5. Protection of Personal Information and Confidentiality

- 1) Support persons who possess knowledge of a personal information of students with disabilities (this includes information concerning the disability and consultation records) as a result of their support activities must strictly manage the information in their possession, and obtain consent directly from the student in the case that it is necessary to submit or disclose this information to a third party.
- 2) Support persons may share personal information concerning the students with disabilities while respecting the boundaries of collective confidentiality in cases where APU determines collaborative support provisions to be necessary.

6. Disclosure of Information

Mediums like APU website, will be used to spread information on university support policies for students with disabilities, the support system, consultation process, and support provisions. APU will notify students and prospective applicants via appropriate means as seen fit.
